Subject: FY20212 Consumer Confidence Report

Dear Members,

In accordance with Title 22 of the California Code of Regulations, we are required to provide our members with a yearly Consumer Confidence Report delineating the details of our water quality. The revised requirements of Title 22 states that we need only report and comment on any constituent which exceeds the Maximum Contaminant Level (MCL).

I am pleased to report that test results indicate we have not exceeded the MCL for any Primary Drinking Water Standards (PDWS), which affect health. The only MCL exceeded was for the Secondary Drinking Water Standards (SDWS) for Manganese, however SDWS do not affect health, but only the taste, odor, and appearance of the water.

Please see the attached test results.

Sincerely,

Dennis Eisenbeis Secretary-Treasurer
