## 2019 Consumer Confidence Report

### Annual Drinking Water Quality Report for 2019

This report is designed to inform you about the quality of water delivered to you every day. It is our constant goal to provide you with a safe and dependable supply of water, and we want you to understand the efforts we make to continually improve the water treatment and distribution process and protect our water resources. We are committed to ensuring the quality of your water. For those new to the community, the City receives its water supply through a contract with the United States Bureau of Reclamation. This water is conveyed to the City's Water Treatment Plant from the Coalinga Canal, which originates at the California Aqueduct.

The purpose of this document is to report water quality and compare our water quality to Federal and State regulations. In an effort to bring consistency to water quality reporting, the State Water Resources Control Board (State Board), Division of Drinking Water, which has regulatory authority, has issued guidelines for all water agencies to use in providing water quality information to customers. Water Quality Reports are now only required to report those contaminants detected during sampling. The City's Utility Department sampled for many contaminants during 2018 and is providing analysis results that we feel might be of interest to our customers in addition to those mandated by the State.

If you have any questions about this report or concerning your water utility, please call the City of Coalinga Water Treatment Plant at (559)383-4514. If you want to learn more, you are encouraged to attend any of the regularly scheduled City Council Meetings. The City Council meets on the first Thursday of each month, starting at 6:00 p.m., in the City Council Chambers located at 155 W Durian.

The 2019 Consumer Confidence Report and past yearly reports may be found on the City of Coalinga's Website at:

## Informe de confianza del consumidor

### Informe de Calidad del Agua Potable anual para 2019

Este informe está diseñado para informarle acerca de la calidad del agua suministrada a usted todos los días. Es nuestro objetivo constante para proporcionar un suministro seguro y confiable de agua, y queremos que entienda los esfuerzos que hacemos para mejorar el proceso de tratamiento y distribución de agua y proteger nuestros recursos hídricos. Estamos comprometidos a asegurar la calidad de su agua. Para los nuevos en la comunidad, la ciudad se abastece de agua a través de un contrato con la Oficina de Reclamación de Estados Unidos. Esta agua es transportada a la planta de tratamiento de agua de la ciudad desde el Canal de Coalinga, que se origina en el acueducto de California.

El propósito de este documento es informar la calidad del agua y para comprobar la calidad del agua con las regulaciones federales y estatales. En un esfuerzo para dar consistencia a los informes de calidad del agua, la Junta Estatal de Recursos Hídricos de control (Consejo de Estado), División de Agua Potable, que tiene autoridad reguladora, ha publicado guías para todas las agencias del agua a utilizar en el suministro de información de calidad de agua a los clientes. Informes sobre la calidad del agua y solo se deben informar los contaminantes detectados durante el muestreo. Departamento de Servicios Públicos de la Ciudad tomaron muestras para muchos contaminantes durante el año 2018 y está proporcionando resultados de los análisis que creemos que podrían ser de interés para nuestros clientes, además de las exigidas por el Estado.

Si usted tiene alguna pregunta sobre este informe o de su utilidad de agua, por favor llame a la Ciudad de la Planta de Tratamiento de Aguas Coalinga al (559)383 a 4514. Si desea obtener más información, se la anima a asistir a cualquiera de las reuniones del Ayuntamiento programadas regularmente. El Ayuntamiento se reúne el primer jueves de cada mes, comenzando a las 6:00 pm, en los compartimientos del Ayuntamiento ubicadas en 155 W Durian.
