Inyo County Environmental Health Services Department

<u>NAME & TITLE</u>	<u>EMAIL ADDRESS</u>	<u>Telephone</u>	
		<u>DAY</u>	<u>NIGHT</u>
Sarah Petersen, Environmental Health Specialist	spetersen@inyocounty.us	(760) 878-8489	(760) 878-8489

If the above personnel cannot be reached, contact:

Office of Emergency Services Warning Center (24 hours) (800) 852-7550 or (916)-845-8911.
When reporting a water quality emergency to the Warning Center, please ask for the State Water Resources Control Board – Division of Drinking Water Duty Officer.

Notification Plan

Attach a written description of the method or combination of methods to be used to notify customers in an emergency. Describe methods or combinations of methods to be used (radio, television, door-to-door, sound truck, etc.). For each section of your plan give an estimate of the time required, necessary personnel, estimated coverage, etc. Consideration must be given to special organizations, particularly non-English speaking groups, and outlying water users. See guidance and examples of plans on the next pages.

Date

Water Shortage Contingency Plan for Water Systems serving 1,000 or fewer service connections under Senate Bill 552

Who is responsible for water shortage planning and response for the water system (name and title)?

John Martindale — Facilities and Grounds Manager

- In the event of a severe water shortage or catastrophic water outage:
- Well driller contact for repairs (if applicable): Maranatha Drilling
 - Backup Well and / or Treated Surface Water will be used
 - Provide your County OES contact: Mikaela Torres — 760 878 0120

With a population of fewer than 50 individuals, notification will be made in person by door to door at the home of every resident, distributing handbills directly to mailboxes, posting notices in public spaces, and distributing the same notice via electronic mail to every individual. It is estimated that notification within the entire service area can be completed in fewer than two hours.
