

nitrate levels may also affect the oxygen-carrying ability of the blood of pregnant women.

Turbidity: Turbidity has no health effects. However, high levels of turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may indicate the presence of disease-causing organisms. These organisms include bacteria, viruses, and parasites that can cause symptoms such as nausea, cramps, diarrhea, and associated headaches.

Report prepared by: skOO'kum h₂O monitoring, inc. Tehachapi, CA

**Consumer Confidence Report
Certification Form**

(To be submitted with a copy of the CCR)

Water System Name: **FRONTIER TRAIL HOA WATER SYSTEM**

To summarize report delivery used and good-faith efforts taken, please complete the below by checking all items that apply and fill-in where appropriate:

CCR was distributed by mail or other direct delivery methods. Specify other direct delivery methods used:

- email
- Hard Copy
- Distributed at Member Meeting

"Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:

✓ Posting the CCR on the Internet at www.frontiertrailhomes.com

✓ Mailing the CCR to postal patrons within the service area (attach zip codes used) 93238

Advertising the availability of the CCR in news media (attach copy of press release)

Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
