

Consumer Confidence Report Certification Form

(To be submitted with a copy of the CCR)

Water System Name:	California State Polytechnic University, Pomona
Water System Number:	1910022

The water system named above hereby certifies that its Consumer Confidence Report was distributed on June 25, 2024, to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by:

Name: George Lwin	Title: Manager – Energy, Utilities, & MEP Services
Signature: <i>George Lwin</i>	Date: June 28, 2024
Phone number: 909-869-3034	blank

To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- ☐ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☒ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☒ “Good faith” efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - ☒ Posting the CCR at the following URL:
[Reports \(cpp.edu\)](#) (see attached screenshot)
And on CPP’s “The Compass” at the following URL:
<https://www.cpp.edu/compass/index.shtml> (See attached)
 - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - ☐ Advertising the availability of the CCR in news media (attach copy of press release)
 - ☐ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - ☐ Posted the CCR in public places (attach a list of locations)

- ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
- ☐ Delivery to community organizations (attach a list of organizations)
- ☒ Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
 - CPP This Week
 - PolyCentric / University News Center
- ☐ Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
- ☐ Other (attach a list of other methods used)
- ☐ *For systems serving at least 100,000 persons:* Posted CCR on a publicly-accessible internet site at the following URL: www._____
- ☐ *For privately-owned utilities:* Delivered the CCR to the California Public Utilities Commission

Consumer Confidence Report Electronic Delivery Certification

Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.

- ☐ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL:
www._____
- ☒ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL:
<https://www.cpp.edu/fpm/forms/2023-ccr-final.pdf>
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ *Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.

Every person associated with the Cal Poly Pomona Water System (staff, faculty, students, and auxiliary staff) has an organizational email address and was emailed both a notification that the CCR was available, along with a direct URL to the CCR where it could be viewed ("Facilities Newsbreak").

Additionally, the CCR was published in the electronic community newsletters ("CPP This Week, and PolyCentric / University News Center") and on the CPP Webpage of all Facilities Newsbreaks ("The Compass").

The name, telephone number and email address of a contact person was provided to address any questions.

This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c) of the California Code of Regulations.

Cal Poly Pomona Releases Water Quality Report for 2023

SUSTAINABILITY

June 25, 2024 | [CPP News Editor](#)

Joe Phillipy, chief operator of the Water Treatment Plant, tests samples of water from sites across the campus.

[Facilities Planning & Management](#) has released its [2023 Water Quality Report](#). The in-depth report contains important information about the quality of the campus drinking water and the university's efforts to continue to provide the highest quality water.

In 2023, Cal Poly Pomona's drinking water met or exceeded all drinking water health standards of the U.S. Environmental Protection Agency and the State of California. The report covers testing of campus water between Jan. 1, 2023, and Dec. 31, 2023.

In order to ensure that water is safe to drink, the U.S. Environmental Protection Agency (EPA) and the State Water Resources Control Board (State Water Board) prescribe regulations that limit the number of certain contaminants in water provided by public water systems.

For 2023, the drinking water delivered to the campus community met or exceeded the standards established by these federal and state agencies. This annual report fully complies with the regulations of the 1996 Safe Drinking Water Act.

CPP uses both ground and surface water supplies to produce drinking water. Most of the drinking water that is produced comes from the domestic groundwater Well 1 that is located on university property and permitted by the State Water Board. This domestic water well is tapped into the Spadra groundwater basin and water extracted from this well is treated by a process known as reverse osmosis. The treated water may also be blended with water purchased from the Metropolitan Water District of Southern California (MWD).

For specific questions about the quality of drinking water supplied to the campus community, contact Joseph Phillipy, chief operator of the water treatment plant, at wateroperations@cpp.edu.

CPP This Week 7-10-24 Announcements.pdf;

This Week Wednesday, July 10 — Monday, July 15, 2024

CPP Receives Record Number of First-Year Student Applications

The university received a record 51,022 applications from first-time freshmen for fall 2024 — a more than 10 percent increase over last year. Combining both aspiring first-year and transfer student applications brings the total to over 63,000 students hoping to join the Bronco community. “The big story here is the high demand for our amazing, diverse programs; hands-on learning opportunities; and the university’s industry connections,” says Senior Associate Vice President for Enrollment Management and Services Jessica Wagoner. “On top of that, we

admitted almost 75 percent of first-year applicants and have put together the most financial aid packages ever despite the problems that beset FAFSA this year.” [Continue reading via CPP News.](#)

Common Read Selected for the 2024-25 Year

Michelle Zauner’s “Crying in H-Mart,” a memoir about growing up Korean American, has been selected for the [university’s 2024-25 Common Read](#). A singer, songwriter and guitarist, Zauner writes about growing up as one of a few Asian American kids at her school in Oregon, and her mother’s terminal cancer diagnosis. In caretaking for her mother, Zauner reflects on her Korean identity — the food, language and history — shared with her. “This book portrays a very authentic perspective on grief and loss as well as the experiences of someone navigating biracial identities,” said Jacqueline Naranjo, senior coordinator of Academic Support & Engagement, who nominated the book. “In our post-COVID world, I think it will speak to students and

community members who have lost someone dear to them.”

College of Ed Grad Awarded Prestigious Social Justice Award

Recent graduate of the Ed.D. program, Leilani Lafaurie ('24, educational leadership) has been awarded the 2024 Michi and Walter Weglyn Endowed Chair of Multicultural Studies [Social Justice Award](#). Her achievements reflect her academic excellence and her unwavering passion for creating a more just and equitable society. Leilani’s dissertation, “Equity Development During Social Transformation: A Grounded Theory Study of Charter School Leaders,” describes evolving leadership identities towards an anti-racist paradigm that supports equity during times of social transformation and in the aftermath.

In the News

Philip Gaulty, lecturer of music, was featured in a photo by the [Los Angeles Daily News](#) for his work with the non-profit organization, Street Symphony. Street Symphony has been in operation since 2012, hosting events featuring jazz, mariachi and other genres of music offering a chance for homeless students to perform for their community during free weekly music classes. Gaulty teaches and directs "Midnight Strings," Street Symphony's guitar and songwriting program held at The Midnight Mission shelter in Skid Row.
