

Consumer Confidence Report Certification Form

(To be submitted with a copy of the CCR)

Water System Name: City of Lomita Water Department

Water System Number: CA1910073

The water system named above hereby certifies that its Consumer Confidence Report was distributed on 5/14/2020 (electronic) and 5/15/2020 (insert in bill) to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by: Name: Carla Dillon

Signature: 

Title: Public Works Director

Phone Number: (310) 325-7110 Date: 6/1/2020

To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- ☐ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☒ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☒ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - ☒ Posting the CCR at the following URL: www.LomitaWater.com
 - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - ☐ Advertising the availability of the CCR in news media (attach copy of press release)
 - ☐ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - ☐ Posted the CCR in public places (attach a list of locations)
 - ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
 - ☐ Delivery to community organizations (attach a list of organizations)
 - ☒ Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice) June 1, 2020
 - ☒ Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized): NextDoor, Facebook
 - ☐ Other (attach a list of other methods used)
- ☐ For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www.
- ☐ For privately-owned utilities: Delivered the CCR to the California Public Utilities Commission

Consumer Confidence Report Electronic Delivery Certification

Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: www.LomitaWater.com/CCR2019
- ☒ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: www.LomitaWater.com/CCR2019
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ *Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.

For customers that receive hard copy bills (4100 accounts), a 1/3 cut insert was provided with a direct link to the CCR in their hard copy bill mailed on May 15, 2020.

For customers that selected e-billing (67 accounts), an email was sent announcing the CCR with a direct link to the CCR on May 14, 2020.

For others who expressed interest in the Water Infrastructure, an email was sent to announce the CCR with a direct link on May 14, 2020.

The CCR was also announced with a link on Nextdoor and Facebook on May 14, 2020.

The CCR was also announced with a link on the City's June 1, 2020 Newsletter.

The City will mail hard copies upon request.

*This form is provided as a convenience and may be used to meet the certification requirement of
section 64483(c) of the California Code of Regulations.*

Your 2019 Lomita Water Consumer Confidence Report is now available!

To view your 2019 Consumer Confidence Report and to learn more about your drinking water, please visit the following URL:

www.LomitaWater.com/CCR2019

The Consumer Confidence Report is an annual water quality report that the Safe Drinking Water Act (SDWA) requires Lomita Water to provide you with. The purpose of the Consumer Confidence Report is to raise customers' awareness of the quality of their drinking water, where their drinking water comes from, what it takes to deliver water to their homes, and the importance of protecting drinking water sources.

In the past, Lomita Water has mailed its customers a printed copy of the Consumer Confidence Report to comply with the SDWA. In 2013, the State of California expanded its interpretation of the SDWA to allow for electronic delivery of the Consumer Confidence Report. The electronic delivery method will allow Lomita Water to reduce the consumption of paper, and minimize potential printing and mailing costs.

If you would like a paper copy of the 2019 CCR mailed to your mailing address or would like to speak with someone about the report, please call 310-325-7110.

A DIGITAL NEWSLETTER FROM THE CITY OF LOMITA

JUNE 2020

LA County Issues Second Curfew Order

As you are aware, events over the weekend have caused unrest in many communities in our area. The City of Lomita and the LA County Sheriff's Lomita Station were prepared and monitoring the events throughout the weekend. There were planned events in some of our surrounding communities, but thanks to the diligence and hard work of our Lomita Station teams, the events were peaceful and mostly quiet with very few incidents in Lomita. To protect our community, Lomita Station has deployed additional units to patrol our area and keep our community safe. This afternoon, LA County Sheriff Villanueva announced a second county-wide curfew will be in effect this evening (6/1/20) from 6PM to 6AM to preserve the public order and safety in the County. This order is in addition to any curfews established by local communities and DOES apply to Lomita. To help our Sheriff's deputies keep our community safe, we ask that you stay safe at home unless you are travelling to or from work, seeking medical treatment, or seeking shelter. We have shown over and over again that Lomita really is the Friendly City, and with your help we will keep our businesses and

neighborhoods safe and secure. If you have questions regarding the County-wide curfew, you can see the full emergency order at https://lacounty.gov/wp-content/uploads/01062020HP_MFP_M577114634.pdf or call 2-1-1. If there is a life threatening emergency, call 9-1-1. For other non-emergency information, you can call Lomita Station directly at (310) 539-1661.

CORONAVIRUS

Updates - Information - Resources

As the State and County issue revised orders to move through the phased reopening of our communities, Lomita residents and businesses must continue to comply with the coronavirus health regulations. As our residents resume activities, we ask that you continue practicing social distancing, wear a face covering while around others, practice proper hygiene and stay home if you are sick.

On May 22, the Lomita City Council approved a resolution extending the City's existing emergency measures through June 30, described below. These emergency measures can be changed at any time to coincide with further revisions to the Los Angeles County Health Officer's Order.

Visit the City of Lomita's stand alone website dedicated to COVID19 <https://lomitacoronavirus.info/> to stay up to date on Lomita programs and services.

Temporary Moratorium on Foreclosures and Residential and Commercial Evictions

On May 22, the City Council extended its foreclosures and residential and commercial eviction moratorium through June 30, 2020 to protect

renters and small businesses struggling financially during COVID-19.

This measure is intended to provide protections to those have had unforeseen financial impacts due to COVID-19. The ordinance extends the repayment period to six months after the expiration of the local emergency and the landlord may not charge a late fee on the rent.

Street Sweeping and other Enforcement to Tentatively Resume on Monday, July 6

As many residents continue to be at home due to the coronavirus situation and street parking is limited, Lomita has extended the suspension of all street sweeping related enforcement through July 6.

The city anticipates evolving guidance from the Los Angeles County that will affect when more people can hopefully return to work and that will impact when the city officially restarts ticketing on street sweeping days. We will provide ample notice before the ticketing ban is lifted.

To keep our streets as clean as possible, it would be appreciated if you are able to park your vehicle off the street on your designated sweeping day.

Tennis Courts and Parks Now Open for Active Use

Residents now have access to Lomita Park for active use consistent with LA County's public health guidance. The tennis courts at Lomita Park will be open Monday thru Friday, 7:00 a.m. to 5:00 p.m. The following facilities/areas remain closed:

- Softball Diamond
- Outdoor Basketball Court
- Multi-Purpose Field (Belba Field)
- Senior Walking Path Workout Stations
- Children's Play Areas (including slides and swings)
- Picnic Shelters
- Gymnasium

- Community Room

The park entrance off Walnut Street will be unlocked Monday thru Friday at 6:00 a.m. and locked by sundown.

All special events and recreational programs planned through June 30, 2020 have been cancelled or modified.

CITY OF LOMITA

TEMPORARY EXTERIOR EXPANSION PERMITS

The City of Lomita is proud to offer temporary outdoor permits for our local commercial businesses which need to expand in order to meet social distancing requirements. The City will facilitate this permit at no cost to business owners looking to reopen due to Covid-19 required closures. With this permit, businesses will be allowed to use their surrounding outdoor areas such as parking lots, open space, and adjacent sidewalks (where permitted) to expand daily operations. Sidewalks and other public spaces will require an encroachment permit which we will facilitate through the Public Works Department at no cost.

To apply for a Special Event Permit please submit an application via our online portal at <https://lomitaca.viewpointcloud.com>. Click on **"Special Event Permits"**.

Pursuant to Title III, Chapter 6.5 of the Lomita Municipal Code the following information is required to apply for a Special Event Permit:

- Description of the operations (hours of operation, estimated daily attendance, description of activities taking place in exterior area, and other relevant information to facilitate the permit request)
- Property Owner Approval
- Proof of Insurance
- Plot Plan Detailing Location and Size of Expanded Area

Any expansion into the public right of way or any other public spaces, will require a separate encroachment permit application found at:

(http://www.lomita.com/cityhall/public_works/Encroachment-Permit-Application.pdf). Please upload this application as an attachment to your special event permit. ADA accessibility requirements will still need to be met which will be discussed directly with each applicant.

Questions: Please contact the Planning Division at 310-325-7110 x122 or via email at l.macmorran@lomitacity.com

CITY HALL OFFICES

We Want to Hear from You!

The City of Lomita recently held a Budget Workshop to review the upcoming budget for fiscal year 2020-21 and the financial impacts the COVID-19 crisis has and will undoubtedly continue to have on our

community. The focus of this year's budget proposal is maintaining our primary services – public safety, roads and water system infrastructure investment, and community supportive programs – while recognizing our dependence on external funding to accomplish many of those goals.

If Lomita is to continue to set our sights high to respond to our residents' needs over the long term, especially in the face of the COVID-19 pandemic, we'll need to explore some of the same local funding mechanisms many of our surrounding communities have had established for decades. If we are able to keep our funding local and invest it right back into our community instead of seeing it go to projects and programs across the County and the State, we will be able to maintain local control of these funds, protect against the likelihood of State-enforced budget cuts or raids on local funding resources, and help accomplish the things our residents have been seeking for many years.

We welcome your input as we explore feasible solutions to address the fiscal challenges and consider a potential local funding measure to maintain public safety, programs and services in Lomita. [Click here](#) to take a short survey that can help us better meet the needs of our residents.

As always, you can also reach out to us directly for more information or with questions at 310-325-7110. Thank you for your participation!

City Receives \$2 Million WRD Grant for Lomita Water Filtration Project and Annual Water Quality Report now available

Despite what is going on in the world, Lomita Water is continuing to make needed improvements. We are excited to share that the Water Replenishment District of Southern California has authorized \$2 million in grant funds for Lomita's Water Granular Activated Carbon treatment project under the Safe Drinking Water Program!

This project is the result of grassroots input from our community and will not only improve the aesthetic qualities of Lomita's water, but also remove benzene and other constituents all while

reducing our dependence on costly imported water. [Click here](#) to read the City's news article for more information.

Lomita residents can learn more about the City's drinking water and view water quality data in the 2019 Lomita Water Consumer Confidence Report available online at www.LomitaWater.com/CCR2019. In addition to including water quality data, this year's report highlights the City's efforts to inform residents of our water service through the Lomita Water Infrastructure Tour Program and Lomita Water Explainer Video.

Lomita Releases Water Infrastructure Explainer Video

Lomita residents can learn about our current water infrastructure through a new Lomita Water System animated video! The video describes how the Lomita Water System treats and filters water from various sources and distributes safe, clean, reliable drinking water to our residents and businesses.

Lomita is fortunate to have a redundant system, which includes the ability to provide 100% imported water if necessary. While we work with the State Water Board to identify the source of benzene detected last year and upgrade our system to remove benzene through Granular Activated Carbon filtration, the City of Lomita is currently distributing water through our imported water connections.

Originally planned to improve the aesthetic qualities of Lomita's water, the Granular Activated Carbon project will allow the City to return to normal operations. The City is continually upgrading our facilities and systems and is committed to ensuring that Lomita residents have the highest quality water for years to come.

See the video [here](#) and visit LomitaWater.com to sign up for alerts, register for a future Lomita Water infrastructure Tour, and learn more about the Lomita Water System.

LIFT UP LOMITA NEWS

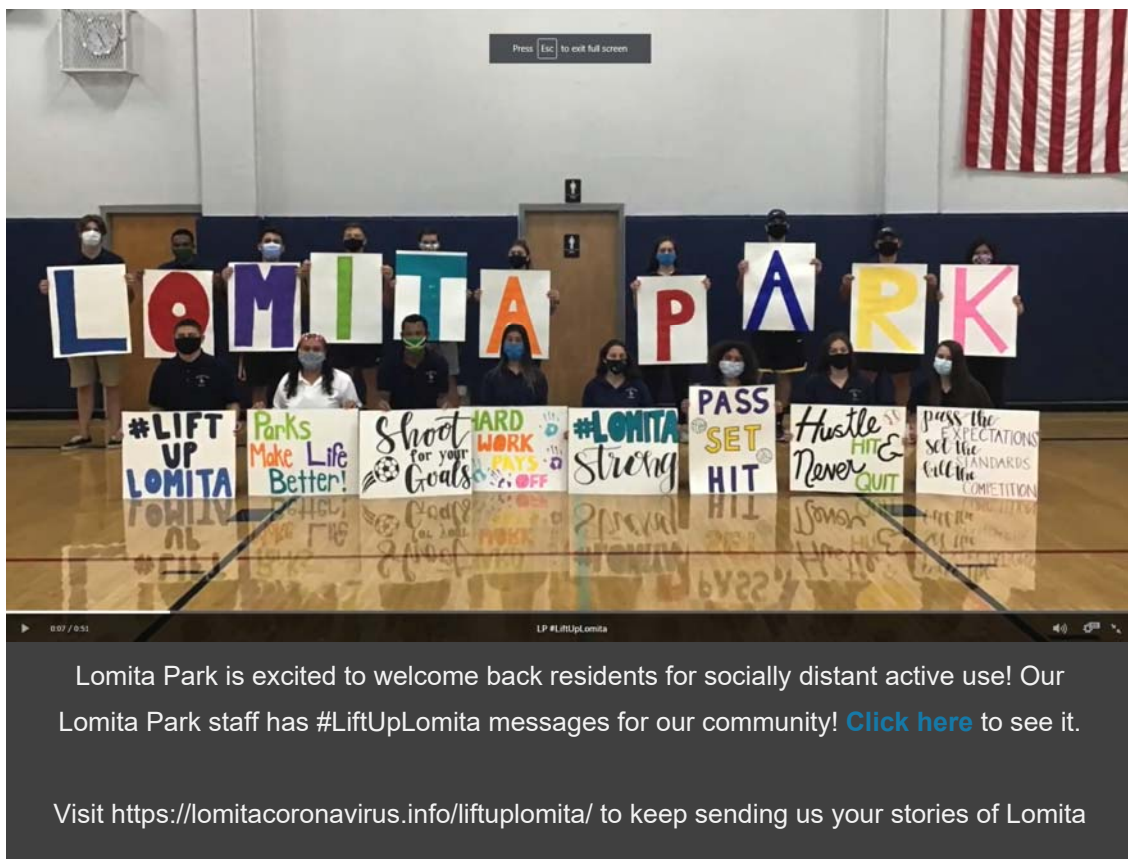

Paper Goods and Face Masks Still Available

We know these are trying times for our community and we continue to connect with our residents with a helping hand.

The City has been distributing face masks and care packages of paper goods to those in need through the City's Lift Up Lomita Program. Close to 300 packages have been delivered so far. If you are a resident or business owner in the City of Lomita and you are in need of these items, please continue to email us at LiftUpLomita@lomitacity.com and we will assist in getting you these items.

The face masks were generously donated by the Picerne Family Foundation, a non-profit organization that has partnered with Lomita in the past for the betterment of our community. The paper goods and water bottles were purchased with donated funds from members of the City Council and Lomita employees.

We are encouraged by all the great acts of neighborliness in our community and our region. Keep sending your positive stories of Lomita Lifting Up Lomita!

Lomita Park is excited to welcome back residents for socially distant active use! Our Lomita Park staff has #LiftUpLomita messages for our community! [Click here](#) to see it.

Visit <https://lomitacoronavirus.info/liftuplomita/> to keep sending us your stories of Lomita

Helping Lomita or to let us know if you know someone who could use some help. We are in this together - let's keep on proving why Lomita really is "The Friendly City."

Trash Service Resumes Regular Operations

Los Angeles County Sanitation recycling facilities have resumed operations, and as such, CalMet services have returned to normal 3-truck pickups. Thank you for continuing to separate waste and recycling materials. To ensure your containers are serviced, please place them curbside by 6:00 a.m.

Also CalMet offers collection of bulky item pick-up for free. For guidelines and to submit your request form, click [here](#).

For more information, visit the [CalMet website](#) or call 562-259-1239.

Got a pup? Don't forget to clean up!

The City of Lomita wants to remind dog owners that they are required to secure their dogs on a leash and remove their dog's waste from public sidewalks, parks and any other public property. Cleaning up after their dogs is part of being a responsible dog owner and is an important part of protecting the health, safety, and general welfare of our community. Stormwater carries pet waste and other pollutants directly into waterways, which can spread disease and be harmful for the environment. Remember, be a friendly neighbor and clean up after your pets.

Skateboarding Not Permitted in Designated Public Areas and Parks

Because skateboarding is an inherently dangerous activity, a City ordinance exists to regulate skateboarding and similar recreational activities in certain locations around the City. This is to avoid potential harm or injury to the skaters themselves, others, and property.

In Lomita the ordinance prohibits skateboarding, rollerskating, or bicycling in areas designated by a sign on public property, including City

Hall and parks, where new signs were recently installed. Those who violate the ordinance can face a fine of twenty-five dollars for the first offense.

Always wear protective safety gear, including helmets, knee and elbow pads that meet current U.S. safety standards. Skateboarding injuries account for thousands of physical injuries each year, mostly involving children.

LA County Great Plates Program

The County of Los Angeles is encouraging residents to apply for their Great Plates Delivered Program, a meal delivery service for seniors and individuals at high risk due to the COVID-19 pandemic. Eligible applicants are matched for meal delivery service based on availability of participating restaurants in their area. To apply or learn more about the program, dial 2-1-1 or visit wdac.lacounty.gov/greatplates.

Restaurants interested in participating to become a meal provider can submit an interest form at: <https://state-of-california-agency.forms.fm/great-plates-delivered-food-provider-interest-form/forms/7917>.

Combating the Digital Divide

LA County recently launched a digital tool to help residents access free WiFi spots throughout the region. Go to findwifi.lacounty.gov and enter a street address to find:

- The appropriate school district website with available information about Internet access for students.
- A County Library within three miles that provides free public WiFi. An LA County Library Card is required to login to the public library WiFi. If you do not have a card, call your local library or obtain a temporary card by [clicking here](#).
- A County park within three miles that provides free outdoor public WiFi.

- Residential and commercial broadband Internet providers serving the address.
- Consumer mobile (cellular) broadband Internet providers serving the address.

Residents of LA County can dial 2-1-1 for further assistance.

Alert SouthBay: New Regional Emergency Alert System

To sign up, text: ALERTSB to 888-777 or visit alertsouthbay.com.

The City of Lomita has joined 12 neighboring cities in the South Bay to establish a regional notification system, Alert South Bay. This system allows a large number of people to be contacted simultaneously via multiple methods, including landline phones, cell phones, text messages, email and TTY/TDD devices.

The South Bay Cities have been using this notification system to send COVID-19 related joint messages specific to our region. Alert SB is an opt-in system, meaning residents are not automatically enrolled.

Residents can also opt-in to receive non-emergency notifications by city or zip code, such as major traffic impacts, emergency preparedness advisories, and other non-emergency alerts. You can change or modify these preferences anytime by logging in to your account settings.

You can still respond to the 2020 Census!

The Census Bureau continues to encourage everyone to help ensure a complete and accurate count in 2020. This data will help determine congressional representation, allocate hundreds of billions in federal funding every year, and provide information that will impact communities for the next decade.

If you haven't already done so, respond to the 2020 Census online, over the phone, or through the mail with their paper questionnaire before October 31. If you haven't responded by mid-August, a Census taker will visit your home. Responses to the census are critically important and together we can ensure that our community receives the resources it needs.

For more information, visit 2020Census.gov.

Lomita Parks & Recreation

OFFERING VIRTUAL CLASSES & CAMPS THIS SUMMER

Things might be a bit different, but our amazing classes & camps haven't changed. Register for Belly Dancing, Gentle Yoga, Soo Bahk Do, Kids Gym Fitness, Brit West Soccer Classes & Camps, Lego Camp, & The 20th Annual Lomita Park Basketball Camp. **Only** accepting online registration for summer classes. Registrations begins May 26, 2020 at 9:00 A.M

The Tomato Chronicles

Part Two

A City of Lomita Newsletter special series that will provide a "how to guide" and a reality-based account of growing tomato plants in LOMITA.

There is an infinite amount of "how to" information depicting tomato growing techniques available through endless media and literary sources. Welcome back to the "Tomato Chronicles," where the goal is not to debunk other growing methods but to illustrate a tried-and-true strategy for tomato nirvana in the City of Lomita. I hope everyone's plants are off to a healthy start. Part two will discuss local challenges and successful "Lomitian" remedies employed to traverse these obstacles. I will also provide tips on resources for more information regarding maintaining plants through the middle portion of the growth cycle.

Observation and Action

The most important growing tip is to observe your tomato plants daily. If one notices plants with an

unhealthy appearance, something is amiss. A remedy should be sought immediately. Advice can be found by conducting an internet search of the symptoms your plants are experiencing. Countless websites will suggest a plethora of both organic and synthetic pesticides, fungicides, and homemade potions to cure the ill. Consulting a home gardening expert at a local retailer can also prove effective. Taking photos or removing a branch to illustrate the problem will be useful. It cannot be stressed enough; at the first sign of unhealthy plants, treatment is needed.

Pests and Disease

In recent years I have encountered whiteflies, spider mites, tomato hornworms and powdery mildew as major obstacles to growing tomatoes in Lomita. I have executed different tactics including spraying with organic pesticides, dusting with diatomaceous earth, and applying a concoction comprised of milk and water.

This year I noticed an influx of whiteflies very early. Whiteflies are sap sucking insects that can weaken or kill plants. I am not claiming scientific expertise, but I will hypothesize that the early patch of hot weather in Lomita this May contributed to this. While tending to my plants, other neighborhood gardeners passing by on walks mentioned they had the same issue. I treated my plants immediately with an organic pesticide and it (or maybe the cooler weather) seemed to take care of the whiteflies (for now).

Other issues encountered over the years in Lomita tomato gardens:

Spider mites- They are miniscule spider like creatures that usually attack the underside of leaves. They feed by piercing leaf tissue and sucking up the plant fluids. Feeding marks show up as light dots on the leaves. As feeding continues, the leaves turn yellow and may dry up and drop off. Spider mites are most common in hot, dry conditions. I have fended off spider mites using organic pesticides and by dusting plants with food grade diatomaceous earth. There are many YouTube videos available demonstrating the benefits and proper use of diatomaceous earth.

Tomato hornworms-These are the large, green and white caterpillar like bugs that eat the leaves of plants and/or chunks out of forming tomatoes. They are hard to see because they are extremely well-camouflaged on the bright green leaves of tomato plants. Their bodies blend perfectly with the angled veins of the tomato plant leaves. If one observes large portions of leaves eaten or partially eaten tomatoes, examine the plant closely. Removing the hornworms by hand is most effective. I have also found the diatomaceous earth dustings kill these harmful pests.

Powdery mildew- A fungal disease that forms splotches of white or gray substance on leaves. It quickly spreads throughout plants. It can be airborne or transmitted by insects from plant to plant. There are several remedies. I have had success, as many home gardeners have had, by diluting milk with water and spraying on plants. I also remove infected leaves. Hands and any tools used during the process should be washed with soap immediately after contact with the infected leaves.

Pruning, Staking and Cages

A last bit of general advice to alleviate both pests and fungal disease is to keep the plant foliage off the ground. This can be accomplished by pruning, staking, and/or caging. Limiting contact with the soil makes it difficult for pests to access the plants. It also minimizes the opportunity for fungal diseases to infect the plants. One of the better articles I have read regarding these issues was written by Frank Ferrandino for "Fine Gardening" magazine. The article can be found here:

<https://www.finegardening.com/article/pruning-tomatoes>

Good luck to all and check back next month to see our progress and for tips on maintaining the plants in their next stage of growth.

Photos show plants 1- Dusted with diatomaceous earth 2 -Pruned and staked 3 - Pruned and caged

Congratulations Class of 2020!

2020 Special Events Calendar

In light of the COVID-19 pandemic, the City of Lomita has cancelled or postponed all Special Events and programs planned through June 30, 2020 for the health and safety of our community. Please check back periodically to see the status of events as new information develops.

[2020 Special Events Calendar](#)

Upcoming Events at the Lomita Chamber

Local businesses now have a "business friendly" partner to promote their products and services, increase the visibility of their businesses, and improve the economy and the quality of life in the community while connecting with local business owners and members. Chamber activities range from hosting business events, to working with local representatives, to charitable efforts for the betterment of the community. Join the new Lomita Chamber of Commerce and learn more about their events and programs.

Lomita Chamber of Commerce
2315 Lomita Blvd, Lomita
