2021 Lomita Water Consumer Confidence Report

The **2021 Consumer Confidence Report** is an annual water quality report that the Safe Drinking Water Act (SDWA) requires Lomita Water to provide its customers. The purpose of this report is to raise customers' awareness of the quality of their drinking water, where their drinking water comes from, what it takes to deliver water to their homes, and the importance of protecting drinking water resources.

In the past, Lomita Water mailed its customers a printed copy of the CCR to comply with SDWA. In 2013, the State expanded its interpretation of the SDWA to allow for electronic delivery of the CCR. The electronic method will allow Lomita Water to reduce the consumption of paper and minimize potential printing and mailing costs.

If you would like a paper copy of the 2021 CCR mailed to you or would like to speak to someone about the report, please call the Public Works Department at 310-325-7110.
