Karen Wong, P.E., Sanitary Engineer
California Department of Public Health
Southern California Branch, Drinking Water Field Operations
500 North Central Avenue, Suite 500
Glendale, CA 91203

Subject: 2021 Consumer Confidence Report reporting 2020 Water Quality Data

Dear Karen Wong,

Pursuant to Section 64483(c), Title 22, California Code of Regulations which requires a water system to "mail a copy of the ... [CCR] to the Department, followed within 3 months by a certification that the report has been distributed to customers, and that the information is correct and consistent with the compliance monitoring data previously submitted to the Department", enclosed are Santa Clarita Valley Water Agency-Newhall's Water Division- Newhall System 2021 CCR and CCR Certification Form.

Jenny Anderson
Water Quality Specialist

APPENDIX B: eCCR Certification Form (Suggested Format)

Consumer Confidence Report Certification Form

(To be submitted with a copy of the CCR)

Water System Name:	SCV Water – Newhall Division – Newhall System
Water System Number:	1910096

The water system named above hereby certifies that its Consumer Confidence Report was distributed on 5/19, 5/26, 6/2, 6/9 (date) to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by:

Name: Jenny Anderson	Title: Water Quality Specialist
Signature: 	Date: 7/20/21
Phone number: (661) 259-1635	blank

To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- ☐ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☒ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☒ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - ☒ Posting the CCR at the following URL: www. <https://yourscvwater.com/water-quality/#waterqualityreports>
 - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - ☒ Advertising the availability of the CCR in news media (attach copy of press release)
 - ☒ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - ☐ Posted the CCR in public places (attach a list of locations)

- ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
- ☐ Delivery to community organizations (attach a list of organizations)
- ☐ Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
- ☐ Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
- ☐ Other (attach a list of other methods used)
- ☐ *For systems serving at least 100,000 persons:* Posted CCR on a publicly-accessible internet site at the following URL: www. <https://yourscvwater.com/water-quality/#waterqualityreports>
- ☐ *For privately-owned utilities:* Delivered the CCR to the California Public Utilities Commission

Consumer Confidence Report Electronic Delivery Certification

Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: www. <https://yourscvwater.com/water-quality/#waterqualityreports>
- ☒ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: <https://yourscvwater.com/water-quality/#waterqualityreports>
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ *Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.

We mailed a notification that the CCR is available and provided a direct URL to the SCV Water website. We used electronic delivery methods through our billing system

as described in the Guidance for Electronic Delivery of the Consumer Confidence Report. Hard copies made available upon request.

This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c) of the California Code of Regulations.

SCV Water Customer Care Lobby Set to Re-open July 6

New Safety Measures in Place, Including Plexiglass Dividers and Hand Sanitizing Station

With the COVID-19 vaccine available and the state's plans to move away from its tier system if certain conditions are met, SCV Water is gearing up to re-open its Customer Care lobby located at 24631 Avenue Rockefeller in Valencia on Tuesday, July 6. The lobby will be open Monday to Thursday from 7:30am – 5:30pm and alternating Friday's until 4:30pm.

"The health and safety of our customers is our top priority," said SCV Water's General Manager Matt Stone. "At the time of our July re-opening, we will follow state and county guidelines for social distancing and face masks; we've also introduced new safety measures in our lobby."

Here's what our customers can expect:

- New safety measures in place, including plexiglass dividers, floor markers and a hand sanitizing station.
- An external drop box that is available 24/7 for payments.
- Flexibility to still do business online at [yourSCVwater.com](https://yourscvwater.com) or by phone, 661-294-0828.
- Option to conveniently pay their water bills in cash at participating 7-Eleven or CVS Pharmacy locations.

Late fees and shut-offs due to COVID-19 are still suspended in the near term, but SCV Water encourages customers who are behind on their water bills to set up a payment plan through Customer Care by contacting 661-294-0828. Eligible customers can also apply for state assistance with their unpaid utility bills and rent by visiting, HousingIsKey.com or calling 833-430-2122 for more information and to verify eligibility.

SCV Water Purchases Power Saving Solar Energy Assets

Agency committed to sustainability and clean energy

SCV Water recently completed the purchase of onsite energy-producing solar assets to aid power consumption. This purchase will deliver SCV Water customers a source of clean energy for years to come. The solar panels have been operating on Agency property since 2011 and 2013 under a power purchase agreement. They were purchased for the fair market value buy-out of \$15,467,000. The transaction was completed on March 29 and will serve to put the Agency in an improved financial position while using clean, renewable energy.

The Agency estimates to save \$5 million over the life of the lease, ending in 2039. The energy systems power roughly 17% of SCV Water's total power consumption.

"SCV Water prides itself on a commitment to sustainability," said SCV Water's General Manager Matt Stone. "Investing in solar will deliver a long-term source of clean energy to our valued customers."

TerraVerde Energy assisted SCV Water in completing the successful transaction. The firm has experience negotiating the purchases of large commercial solar projects and has worked with other California public agencies to guide similar asset purchases and mitigate risks while ensuring a smooth and successful transition.

SCV Water is dedicated to the continued search for innovative and environmentally friendly choices to benefit customers. Recently, the Agency also received nearly \$250,000 in grant funds from the California Governor's Office of Emergency services, which will help fund a new generator at its Earl Schmidt Filtration Plan. The new generator will keep power running in times of emergency.

For more information and resources, visit yourSCVwater.com.

Water Shortage Contingency Plan Public Hearing Set

SCV Water is undertaking several important planning efforts to ensure adequate long-term water quality and supplies for today and tomorrow. As part of this, SCV Water will hold virtual public hearings on the Water Shortage Contingency Plan and Ordinance on Wednesday, June 9 at 6:00 p.m. The public will have an opportunity to provide comments during the hearings, which comes after the 30-day public review and comment period that ended on April 12. The draft plan and ordinance are available online at: yourSCVwater.com/wscp.

The Water Shortage Contingency Plan is a requirement of the California Urban Water Management Planning Act and other applicable laws. This plan will help SCV Water prioritize actions when water shortage conditions occur such

because of drought, earthquakes, fires or other catastrophic events. Important components of the plan focus on water conservation and water shortage planning.

The public has been invited to participate in the process to develop the Water Shortage Contingency Plan. The Agency held a public workshop in January that is available to view, along with the presentation and factsheet, at: yourSCVwater.com/wscp.

SCV Water is Here to HELP Rebates up to \$750*

 <p>SCV WATER is here to HELP</p> <p>REBATE UP TO \$750</p> <p>TELL ME MORE</p>	<p>CONVERT SPRAY DRIP IRRIGATION</p> 	<p>INSTALL HE NOZZLES & PRESSURE REGULATION</p> 
---	--	--

SCV Water is offering its HELP Rebate (Healthy & Efficient Landscape Programs) to residents, businesses, large landscapes and homeowners' associations.

Rebates available up to \$750* per account
(*excluding taxes, labor, and non-qualifying devices)

Decide which option works best for you ... or use a combination of both!

- **Option #1:** Convert spray to drip irrigation. Get \$0.50/sq ft to convert spray irrigation to drip. Drip irrigation works best for shrubs, flowers, and other non-turf applications.
- **Option #2:** Install high-efficiency nozzles and pressure regulators. Get the following rebates: 100% for HE nozzles, 75% for master pressure regulation, and \$10 per pressure regulating body, when you replace your old spray sprinklers with high efficiency equipment to make your irrigation system lean, mean and green!

For more information, click [here](#).

Social Media Spotlight

Water is a limited resource so do what you can to conserve it! If you have an electric dishwasher, use it only to wash full loads, and use the shortest cycle possible. Many dishwashers have a conserve/water-miser cycle.

NEWS RELEASE

DATE: June 10, 2021

FOR IMMEDIATE RELEASE

SCV Water Releases Annual Water Quality Report

Water supplied to customers continues to meet or surpass state and federal quality standards

SANTA CLARITA – SCV Water's 2021 Annual Water Quality Report is now available. This year's report, in partnership with Los Angeles County Water Works District #36, shows that water provided by the Agency to customers continues to meet or surpass rigorous state and federal drinking water compliance standards during 2020.

"This past year has brought all of us challenges and uncertainty. One thing our customers can rely on is that our team of essential workers continues to provide our community with clean, safe water they can trust," said SCV Water General Manager Matt Stone. "We invite our valued customers to read the report to learn more about the quality of our water, future planning efforts, programs and initiatives."

The annual report, also referred to as a Consumer Confidence Report, is required by the Division of Drinking Water (DDW) and provides a snapshot of local water quality supplies in the Santa Clarita Valley, details on where the Agency's water comes from, what it contains and how it compares to strict federal and state standards.

Before reaching the tap, the Agency's water supply must withstand rigorous rounds of treatment and monitoring. More than 20,000 tests per year are performed to ensure a safe water supply is delivered to customers.

The full report is available in both English and Spanish at <https://yourscvwater.com/water-quality/>. Water customers will receive a bill notice no later than June 30 notifying them that the report is available. Customers can also request a hard copy in either language at (661) 294-0828 or ccare@scvwa.org.

About SCV Water:

The Santa Clarita Valley Water Agency (SCV Water) is a full-service regional water agency located in the Santa Clarita Valley. SCV Water provides water service to approximately 74,000 business and residential customers. It was formed on January 1, 2018, when local water suppliers combined into one integrated, regional water provider. More information can be found at www.yourSCVwater.com

Report shows local water quality surpasses state and federal standards

Kev Kurdoghlian

2 minutes

The Santa Clarita Valley Water Agency released its annual water quality report this week. This year's report shows that customers continued to receive water that meets or surpasses rigorous state and federal drinking water compliance standards in 2020.

"This past year has brought all of us challenges and uncertainty. One thing our customers can rely on is that our team of essential workers continues to provide our community with clean, safe water they can trust," SCV Water General Manager Matt Stone said in a prepared statement.

The annual report is required by the state water board's Division of Drinking Water and provides a snapshot of local water quality supplies in the SCV, details on where the agency's water comes from, what it contains and how it compares to strict federal and state standards.

Before reaching the tap, the agency's water supply must withstand rounds of treatment and monitoring. SCV Water performs more than 20,000 tests per year to ensure a safe water supply for

its customers.

The full report is available in both English and Spanish at <https://yourscvwater.com/water-quality/>. Water customers will receive a bill notice no later than June 30 notifying them that the report is available. Customers can also request a hard copy in either language at 661-294-0828 or ccare@scvwa.org.
