GOLDEN STATE WATER COMPANY'S NOTICE OF APPLICATION REQUESTING TO INCREASE RATES REGION 2 SERVICE AREA (APPLICATION NO. 20-07-012)

On July 15, 2020, Golden State Water Company (GSWC) filed what is known as a “General Rate Case” (GRC) application with the California Public Utilities Commission (CPUC). The application filing by GSWC requests to increase rates over a three-year period, covering the years 2022 through 2024. This request to increase rates would be effective beginning January 1, 2022.

GSWC’s Region 2 service area includes all or portions of the cities of Artesia, Bell, Bell Gardens, Carson, Cerritos, Compton, Cudahy, Culver City, Downey, El Segundo, Gardena, Hawaiian Gardens, Hawthorne, Huntington Park, Inglewood, Lakewood, La Mirada, Lawndale, Long Beach, Norwalk, Paramount, Santa Fe Springs, South Gate, the communities of Athens, Lennox, Willowbrook and Moneta, Florence-Graham, Del Aire and vicinity, Los Angeles County and portions of City of Los Alamitos, and Orange County.

Why is GSWC requesting this rate increase?
The CPUC requires GSWC to submit a GRC application every three-years. GSWC is requesting authorization to increase revenues in the Region 2 service area by \$23,465,500 (or 16.66%) for 2022, \$7,138,400 (or 4.34%) in 2023, and \$7,788,500 (or 4.52%) in 2024. The total requested increase for all three years combined would be \$38,392,400 (or 25.52%).

The purpose of this GRC is for GSWC to cover its anticipated costs from 2022 through 2024 for purchased water, improvements to the water supply system, Federal Income Tax, property taxes and cost for centralized corporate support services, such as accounting and human resources.

How could this affect my monthly bill?
If the pre-proposed application is approved by the CPUC, the average residential customer with a 5/8 x 3/4" meter using 9 Ccf would see a monthly bill increase of \$9.28 (or 16.30%), from \$56.94 to \$66.22 in 2022. In 2023 the average residential customer would see a monthly bill increase of \$2.94 (or 4.44%), from \$66.22 to \$69.16, and a monthly bill increase of \$3.17 (or 4.58%), from \$69.16 to \$72.33 in 2024, excluding any applicable surcharges.

How does the rest of the process work?
This application will be assigned to a judge, who will consider proposals and evidence presented during the formal hearing process. The judge will issue a proposed decision which may adopt GSWC’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners.

The Public Advocates Office may review this application. The Public Advocates Office is the independent consumer advocate within the CPUC with a statutory mandate to represent customers of investor-owned utilities to obtain the lowest possible rate for service consistent with safe and reliable service and the state’s environmental policy goals. For more information, please call (415) 703-1584, e-mail PublicAdvocatesOffice@cpuc.ca.gov, or visit publicadvocates.cpuc.ca.gov.

Researchers hid ties to Chinese military, FBI says

[Researcher, from B1] as a graduate student at Indiana University, face the same charge; both are accused of having undisclosed ties to the Chinese military.

John Brown, who leads the FBI’s national security branch, said Thursday that agents had identified visa holders in more than 25 U.S. cities with hidden affiliations with the Chinese military.

U.S. authorities have evidence the Chinese government is “instructing these individuals to destroy evidence and [is] coordinating efforts” to spirit them out of the United States, Benjamin Kingsley, an assistant U.S. attorney, wrote in court papers.

FBI agents interviewed Tang, the UC Davis researcher, at her apartment in June and served a search warrant, seizing her Chinese passport and various “electronic media,” Steven G. Dilland, an FBI agent in Sacramento, wrote in an affidavit.

The agents recovered pictures of Tang wearing a uniform of the Chinese People’s Liberation Army Air Force, Dilland said. They also found an application for government benefits in which Tang identified herself as a member of the Chinese Communist Party, he said.

At some point after being interviewed, Tang fled to the Chinese Consulate in San Francisco, a prosecutor wrote in court papers.

Andy Fell, a spokesman for UC Davis, said Tang was a visiting researcher in UC Davis School of Medicine’s radiation oncology department.

Department of Justice
UC DAVIS researcher Juan Tang is said to have fled to the Chinese Consulate in San Francisco.

Her research was funded by the Chinese Scholarship Council, “a study-based exchange program affiliated with the China’s Ministry of Education and Xijing Hospital in China,” Fell said.

Tang left UC Davis at the end of June, and the school “is providing all information requested by the authorities,” he said.

In asking a judge to unseal documents in her case, a second prosecutor, Heiko P. Coppola, said in court papers filed July 13 that representatives of the Chinese government had approached U.S. officials “about the law enforcement activity surrounding Tang.”

The State Department issued a bulletin this month, warning U.S. citizens in China of “arbitrary enforcement of local laws for purposes other than maintaining law and order.” U.S. officials believe that activity “has some relation” to Tang’s case, Coppola wrote.

Victim, suspect are ID’d in O.C. cold case

[Cold case, from B1] and proud of the extraordinary efforts of the active and retired members of the Huntington Beach Police Department and the Orange County district attorney’s office in their tireless pursuit of justice for Anita and her family,” Huntington Beach Police Chief Rob Handy said.

“The fact they never stopped working this case for more than five decades is a tremendous testament to the two departments and our law enforcement profession. There is nothing more important to a victim and their family [than] to know that law enforcement will never give up.”

Over time, officials had called on the public to assist with the investigation. With the help of technology, details began to emerge about the case. In 2001, Piteau’s clothes were examined and processed for DNA. Then, in 2010, a partial DNA profile was obtained from the cigarette, which matched DNA obtained from Piteau’s sexual assault kit.

Nine years later, in 2019, detectives working with the Orange County district attorney’s office used investigative genetic genealogy to map out the possible family tree of the killer. From that, officials identified Johnny Chrisco, who died in 2015 of cancer and is buried in Washington state.

“Nothing, not even the death of the killer himself, will deter the pursuit of justice,” Dist. Atty. Todd

Spitzer said. “The death of a 26-year-old woman who was left in a farm field, raped, beaten and her neck slashed haunted generations of Huntington Beach police officers who refused to give up on identifying Jane Doe and finding the person who robbed a young woman of a lifetime of memories.”

Even as investigators narrowed their search for the killer, they worked to give a name to the woman who had been slain. In 2011, blood from her blouse produced a partial DNA profile that was entered into the national Combined DNA Index

‘There is nothing more important to a victim and their family [than] to know that law enforcement will never give up.’

System, or CODIS, while her fingerprints were entered into the CAL-ID system and the FBI database. Detectives, prosecutors and forensic scientists began working this year on a possible family tree for the woman, and with the help of genealogist Colleen Fitzpatrick, who co-founded the DNA Doe Project, they were able to identify Piteau through DNA matches with her family.

Chrisco was not originally a suspect in the case. He was discharged from the Army after three years “following a failed psychological exam that diagnosed him with having positive aggressive reaction, which was defined as having a pattern of being quick to anger, easy to feel unjustly treated, chronically resentful, immature and impulsive.”

In 2016, Chrisco was listed as one of six deceased veterans, unclaimed by family or friends, who were honored at a Memorial Day ceremony called “The Unforgotten, Run to Tahoma VII Celebration of Life” in Washington’s Kitsap County.

Investigators are not aware of a connection between Piteau and Chrisco. Anyone with information is asked to call the Huntington Beach Police tip line at (714) 375-5066.
