

**Consumer Confidence Report  
Certification Form**  
(To be submitted with a copy of the CCR)

Water System Name: City of Pomona

Water System Number: 1910126

The water system named above hereby certifies that its Consumer Confidence Report was distributed on July 1, 2018 (date) to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by: Name: Nick Capogni  
Signature:   
Title: Water Quality Supervisor  
Phone Number: (909) 620-2248 Date: 7/10/2018

*To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:*

- ☐ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☒ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☒ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
  - ☒ Posting the CCR at the following URL:  
<http://www.ci.pomona.ca.us/mm/water/pdf/Pomona2018CCR.pdf>
  - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
  - ☐ Advertising the availability of the CCR in news media (attach copy of press release)
  - ☐ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
  - ☒ Posted the CCR in public places. Attachment A, List A
  - ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
  - ☒ Delivery to community organizations. Attachment A, List A
  - ☒ Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv. Attachment B
  - ☒ Electronic announcement of CCR availability via social media outlets. Attachment C
  - ☒ Other. Attachment A, List B
- ☒ For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www.ci.pomona.ca.us
- ☐ For privately-owned utilities: Delivered the CCR to the California Public Utilities Commission

## Consumer Confidence Report Electronic Delivery Certification

*Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.*

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed.  
URL: <http://www.ci.pomona.ca.us/mm/water/pdf/Pomona2018CCR.pdf> (Attachment D)
- ☐ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: www.\_\_\_\_\_
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ Requires prior DDW review and approval. Water system utilized other electronic delivery method that meets the direct delivery requirement.

*Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.*

The City of Pomona mailed out CCR Pre-Notices beginning May 1, 2018 with the water bills to let customers know that CCR would be available electronically on July 1, 2018. The notice provided a direct URL to the CCR. Customers were given the option to call in and request a paper copy. (Attachment D Pre-Notice accompanying water bills)

A Flyer announcing the availability of the CCR was distributed at public places such as City Hall, the Library, social media, and City of Pomona Community Centers. The flyer also provided a phone number for customers to call if they want to request a paper copy. Printed copies of the CCR were also distributed at the same public places for posting. (See Attachment A, List A and B, and Attachment E Flyer Announcement).

Announcement of the CCR availability was done on the City of Pomona main web page and the Water Resources page. <http://www.ci.pomona.ca.us/mm/water/pdf/Pomona2018CCR.pdf>

The flyer can also be found in the posted Newsletter located at on the Public Works Department home page. The Newsletters are located at the following URL  
<http://www.ci.pomona.ca.us/index.php/government/city-departments/public-works>

*This form is provided as a convenience and may be used to meet the certification requirement of  
section 64483(c), California Code of Regulations.*

### Good Faith Newsletter

## Water Resources/Public Works

## Urban Greening Program Awards \$1.39 Million to the Phil and Nell Soto Park Project

On November 14, 2017, the California Natural Resources Agency (Agency) announced \$76 million in funding for 39 green infrastructure projects through the state's Urban Greening Program. Funded by Cap-and-Trade revenues, the grant supports projects that aim to reduce greenhouse gases by sequestering carbon, decreasing energy consumption, and/or reducing vehicle miles traveled. The projects also aim to convert built environments into green spaces that improve air and water quality, and provide opportunities for walking, biking and recreation.

As a result of Pomona's application submitted in April 2017, in coordination with the San Gabriel Valley Council of Governments (SGVCOG), and a subsequent site visit by grant representatives on October 10, 2017, Phil and Nell Soto Park was one of only four in the San Gabriel Valley, and one of 13 projects in Los Angeles County to receive grant funds.

Pomona's request for \$1,390,069 was fully met by the Urban Greening Program and will be added to the \$1,000,000 grant the City previously received from the Rivers and Mountains Conservancy for construction of the project. City staff is currently working with the Agency on finalizing the Grant Agreement before the start of bidding for construction.

As a first-of-its-kind park here in Pomona, proposed Phil and Nell Soto Park elements include a walking trail around the site perimeter, fitness stations, picnic areas, a central trellised gazebo with public seating, and informal open turf/meadow areas. Approved native plants and trees will be featured throughout the park, and will include a butterfly habitat and bird sanctuary. Interpretive signage (six panels, distributed throughout the park site) will feature information on the area's history and the flora/fauna on the site, as well as educational information relating to water and energy efficiency, conservation of materials, and conservation of resources. Specific measures to be implemented include low-water irrigation equipment, LED lighting, recycled materials, and permeable surfaces.

## Foothill Gold Line

### Foothill Gold Line

#### *Summer 2018 Updates*

The Foothill Gold Line light rail extension from Glendora to Montclair broke ground in December 2017. The first few years of the project is being spent relocating utilities along the 12.3-mile rail corridor and hiring the design-build team to build the \$1.5 billion, six-station project.

The Foothill Gold Line Construction Authority (the agency responsible for overseeing the project) is currently underway with a multi-step, competitive process to hire the design-build team. Already, the initial seven interested teams have been narrowed to the four most qualified. These four will propose on the project, and the team providing the best value will be hired (the contract award is anticipated in October 2018). The winning bidder will spend the first year finalizing the engineering drawings and preparing a construction schedule. Major construction is expected to begin in 2020 and take six years.

**Major changes anticipated in the City of Pomona** will include a new light rail station to be located east of Fulton Road and west of Garey Avenue, northeast of the existing Pomona North Metrolink station. Access to the Gold Line Station will be from both east and west ends of the platform, and a pedestrian walkway is planned to provide circulation between the Gold Line and Metrolink stations, and a shared new parking facility. Tracks will run on two separate rail corridors, one on the north for the Gold Line and freight, and one on the south for Metrolink and freight. While Gold Line trains and freight trains share the northern corridor, they will not share tracks. Therefore, the freight tracks that run in the middle of the northern corridor will be relocated to the northern half of that corridor, to make room for the Gold Line tracks to be built on the southern half. No changes will take place to the Metrolink station or rail corridor to the south.

Additionally, two new light rail bridges (for the Gold Line only) will be built over Garey Avenue and Towne Avenue, and the California Public Utilities Commission is likely going to require changes to the Pomona North Metrolink Station access from Fulton Avenue (likely restricting turns to right-in and right-out in the future). Additional safety improvements at all street crossings will include new safety gates, raised medians, red curbs and turn restrictions within 100 feet of the rail corridor for protection when trains are approaching. Fencing and walls will be built along the entire Gold Line rail corridor, and new overhead lines will be installed to power the more than 200 Gold Line trains anticipated to serve the city each day.

To learn more and sign up for project updates, visit: [www.foothillgoldline.org](http://www.foothillgoldline.org).

## SR-71 Widening Update and Upcoming Community Meeting

The State Route 71 (SR-71) Widening Project proposes to upgrade three miles of the existing four-lane express way to an eight-lane freeway, from Interstate 10 to Route 60, by adding one mixed-flow lane and one High Occupancy Vehicle (HOV) lane in each direction. The purpose of the project is to increase freeway capacity, relieve existing traffic congestion, increase traffic safety, and accommodate future traffic demands resulting from regional growth. The project includes replacing two existing bridge structures over railroads and an existing pedestrian overcrossing, as well as constructing retaining walls and sound walls. This segment is the last remaining segment to convert to a freeway and provide carpool lanes between Interstate 10 and Route 91. The SR-71 is a critical connector for distributing nationally significant truck flows between Interstate 10, State Route 60, and State Route 91 through Los Angeles, San Bernardino, and Riverside Counties.

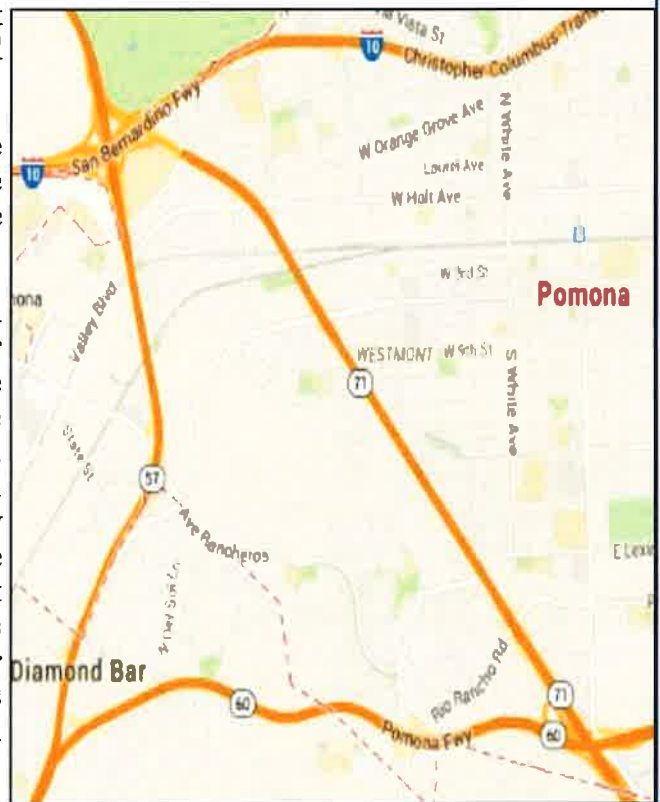

With the November 2016 passing of Measure M, known as the Los Angeles County Traffic Improvement Plan, approximately \$250 million will be generated for the construction of the SR-71 widening. The total cost of the project is currently estimated at \$295 million. A total of about \$56 million of state and federal government funding is expected to help cover costs associated with design and right-of-way acquisition.

Caltrans is well underway with the design of this project, and has until August 2019 to complete the plans and specifications for construction. According to the Caltrans Project Manager, construction is anticipated to begin in early 2020.

A 2002 Project Report for widening SR-71 from I-10 to SR-60 detailed the proposed upgrade to this facility to a full eight-lane freeway in a semi-depressed configuration. This project was ultimately put on hold due to lack of funding until 2013. On January 17, 2013, the City Council approved an alternative for widening SR-71 with the following main features: at-grade with no vehicular crossings, and no additional frontage roads. Between January 2013 and May 2013, Caltrans completed a Supplemental Project Report that included the proposed project features as approved by City Council in January 2013.

Caltrans has recently notified Staff that they are planning to conduct a Community Meeting in the next 1-2 months, anticipated to be held at the Westmont Community Center.

There were several prior meetings held, including a total of four workshop/community meetings to hear resident feedback during the preparation of the 2002 Project Report. Later, there were Community Meetings held on November 14, 2012 and December 10, 2012 to hear resident feedback on the various project alternatives being considered by the City Council. Over 6,900 residents were notified of the meetings. Moreover, project materials and alternatives were posted on the City's website in December 2012 to allow further evaluation by the community. It was through this process that the City Council decided upon an alternative on January 7, 2013 at an Open Session.

## Spring Is Sprinkler Spruce-Up Season

Spring is right around the corner—are your sprinklers ready? Homes with irrigation systems use about 50 percent more water outdoors than homes without. Spruce up your sprinkler system now to maximize performance while minimizing water waste during peak watering months this summer. It doesn't take much to prepare your sprinkler system for warm weather watering. Sprucing up is simple with these four steps: inspect, connect, direct, and select.

Source: WaterSense Current Spring 2018

## Test Your Water Knowledge!

1. Do you look at your water bill?
2. Do you know how much a unit of water equals?
3. Do you know how many gallons of water you were last billed for?
4. Do you know how much a fully treated gallon of water from your tap costs?
5. Do you know how to find out about your water quality?

Answers:  
1. The best place to find information and to learn more about water use is on your water bill  
2. A unit of water = 7.48 gallons  
3. Multiply the number of units you were billed x 7.48 gallons  
4. In most cases it is less than one penny per gallon  
5. You can find this on the City's website or at <http://www.ci.pomona.ca.us/www/business/pdf/2017CCR.pdf>

## Summer/Spring Outdoor Watering Schedule—Level 1 Water Shortage

# 2018 Consumer Confidence Report Annual Water Quality Report

*Water testing performed January-December 2017*

---

*The City of Pomona's Public Works Department is pleased to report that in 2017 the water delivered to your tap met or surpassed every public health requirement set by the State Water Resources Control Board (SWRCB), and the U.S. Environmental Protection Agency (USEPA).*

*Starting July 1, 2018 the City of Pomona's 2018 Annual Water Quality Report will be available online at the link provided below. The report contains important information about the source and quality of your drinking water.*

*A partir del 1 de julio 2018 el Informe Anual de Calidad del Agua 2018 de la Ciudad de Pomona estará disponible en Internet en el enlace que aparece abajo. El informe contiene información importante sobre el origen y la calidad de su agua potable.*
