---

*Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.*

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: [http://www.ci.pomona.ca.us/mm/water/PDF/2019\\_CCR\\_Announcement\\_on\\_website.pdf](http://www.ci.pomona.ca.us/mm/water/PDF/2019_CCR_Announcement_on_website.pdf)
- ☐ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: www.\_\_\_\_\_
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ *Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

*Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.*

The City of Pomona mailed out a post card to all customers that the CCR would be available electronically on the City's website, and posted on social media (Facebook and Instagram). The notice provided a direct URL link to the CCR. The notice provided a phone number to call if requesting a hard copy.

A flyer announcing the availability was available on the website and posted at City Hall, Library, and Community Centers. CCRs were printed and distributed to public places per Attachment A, and on the City Website home page and Water Resources Department page.

*This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c) of the California Code of Regulations.*

# Pomona Community Hero Nomination Form

Community Heroes are people who work tirelessly to make a difference. They are the volunteers at our local hospitals, schools, churches and so much more. They consistently and selflessly devote their time and efforts for the benefit others and go above and beyond without thought of reward or recognition.

The L.A. County Fair seeks to honor very special individuals – senior, adult and young adult (under the age of 18) – with a Community Hero presentation to take place on Pomona Day, opening day of the 2019 LA County Fair!

This is your chance to nominate a diligent and deserving individual whom you feel is an unsung hero and an asset to the community. Selected heroes will be honored throughout the day with a reception, onstage presentation and participation in the parade.

Applicants do not have to live in Pomona, but their volunteer activity should impact those who live, work or serve in the city of Pomona. All nominees must have demonstrated outstanding community service or performed a significant act which benefited the community of Pomona.

## **Submission deadline is Thursday, August 1, 2019**

Nomination forms may be mailed, emailed or faxed to:

## Water Smart & Save Money This Summer

Most homeowners overwater their yard, unintentionally wasting money every time they take out the hose or turn on the sprinklers. To raise awareness of the benefits of efficient watering practices, the Irrigation Association has named July Smart Irrigation Month.

Using an automated irrigation system is one of the best ways to keep your lawn and landscape beautiful and healthy, while minimizing water waste.

## Smart Scheduling & Watering

Today's irrigation controllers allow you to easily adjust your system's watering schedule to fit different watering needs.

Schedule each individual zone in your irrigation system to account for sun, shade and wind exposure.

Consider soil type, which affects the how quickly water can be applied and absorbed without runoff.

Make sure you're not sending water down the drain. Set sprinklers to water plants, not your driveway, sidewalk, patio or buildings.

Water at the right time of day. Watering when the sun is low, winds are calm and temperatures are cooler minimizes evaporation by as much as 30 percent. The best time to water is during early morning hours.

Thoroughly soak the root zone (generally within the top six inches of soil for lawns), then let the soil dry. Watering too frequently results in shallow roots and encourages weed growth, disease and fungus.
