### Understanding Your Bill

The information below defines some of the new terms you may find on your bill:

- Service Related Charges:** This section includes charges for services related to water (or wastewater) service. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- Surcharges:** Surcharges are used to recover changes to costs that occur between ratemaking cycles. Common surcharges include Purchased Water, Consolidated Expenses, Conservation, Intervenor Compensation and Payment Assistance.
- Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

## Consumer Confidence Reports Show Excellent Water Quality for California American Water Customers

### *California American Water Surpasses State and Federal Standards*

May 19, 2022 03:53 PM Eastern Daylight Time

SAN DIEGO--(BUSINESS WIRE)--California American Water published the 2021 Consumer Confidence Reports, which demonstrate high quality water service throughout its state districts. The annual reports compare California American Water's water quality with standards established by the U.S. Environmental Protection Agency and the California State Water Resources Control Board, Division of Drinking Water.

The reports also cover drinking water sources, public health information, substances detected in the water and the levels of those substances. Commonly asked questions and answers concerning drinking water are also included.

The reports continue a contemporary design that features illustrated sections of common contaminants and simple-to-read explanations of the various technical terms within the document.

"We are pleased to announce that our 2021 reports demonstrate excellent water quality that meet and exceed all regulatory standards," said Kevin Tilden, President of California American Water. "We hope that customers will find these reports educational and helpful in answering the questions they may have about the state of their water."

Customers can look up their water quality reports by zip code by visiting: [www.californiaamwater.com/water-quality](http://www.californiaamwater.com/water-quality).
