

Consumer Confidence Report Certification Form

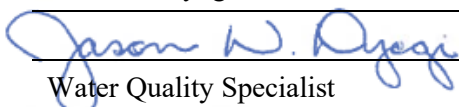

(To certify electronic delivery of the CCR, use the certification form on the State Board's website at http://www.swrcb.ca.gov/drinking_water/certlic/drinkingwater/CCR.shtml)

Water System Name: City of Beverly Hills

Water System Number: CA 1910156

The water system named above hereby certifies that its Consumer Confidence Report notification cards were distributed on **6/11/2026** and posted the CCR on the City's website on **7/1/2026**. The system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water.

Certified by: Name: Jason W. Dyogi

Signature: 

Title: Water Quality Specialist

Phone Number: (310) 285 - 2483

Date: 9/18/2026

To summarize report delivery used and good-faith efforts taken, please complete the below by checking all items that apply and fill-in where appropriate:

☒ CCR was distributed by mail or other direct delivery methods. Specify other direct delivery methods used: The CCR was posted on the City's website on 7/1/2026. Notifications cards were mailed to all non-paying and paying residents. Also, additional notifications were provided in the local "Backbone Newsletter", local newspapers and were provided at two City commission meetings.

☒ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:

☒ Posting the CCR on the Internet at www.beverlyhills.org/waterqualityreports

☒ Mailing the CCR to postal patrons within the service area **for those who requested hard copies.**

☒ Advertising the availability of the CCR in news media (attach copy of press release)

☒ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)

☒ Posted the CCR in public places (attach a list of locations)

☒ Delivery of multiple copies of CCR notification cards to single-billed addresses serving several persons, such as apartments, businesses, and schools

☐ Delivery to community organizations (attach a list of organizations)

☒ Other – Newsletter called the "Backbone" (attach a list of other methods used)

☐ *For systems serving at least 100,000 persons:* Posted CCR on a publicly accessible internet site at the following address:

☐ *For investor-owned utilities:* Delivered the CCR to the California Public Utilities Commission

This form is provided as a convenience for use to meet the certification requirement of the California Code of Regulations, section 64483(c).

Consumer Confidence Report Electronic Delivery Certification

Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: www.beverlyhills.org/waterqualityreports
- ☐ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: www._____
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ *Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

A total of 19,589 notifications were mailed to all City of Beverly Hills and City of West

Hollywood water customers, residents, and businesses utilizing a mailing house

service on 06/11/2026. The post cards provided details on how to view the Consumer

Confidence Report (CCR) online and how to request a hardcopy from the Water Utilities

Bureau. Social Media postings for Facebook, Instagram and X (formerly known as Twitter) were posted on 07/1/2026.

A PowerPoint presentation and Q&A to the public was provided to the Public Works

Commission on 08/13/2026. Another PowerPoint presentation and Q&A will be provided

to the Health and Safety Commission on 10/26/2026. A newsletter about the CCR was

provided in July and August water bills. Notification was also published in the Beverly

Press Newspaper on 7/2/2026, Beverly Hills Weekly on 6/25/2026 and Beverly Hills Courier

on 6/26/2026. Hardcopies was also delivered to City Hall, Public Works, Library, Police Department and Fire Department.

This form is provided as a convenience and may be used to meet the certification requirement of
section 64483(c), California Code of Regulations.

is to "support instructional goals, promote responsible technology use, and establish clear expectations."

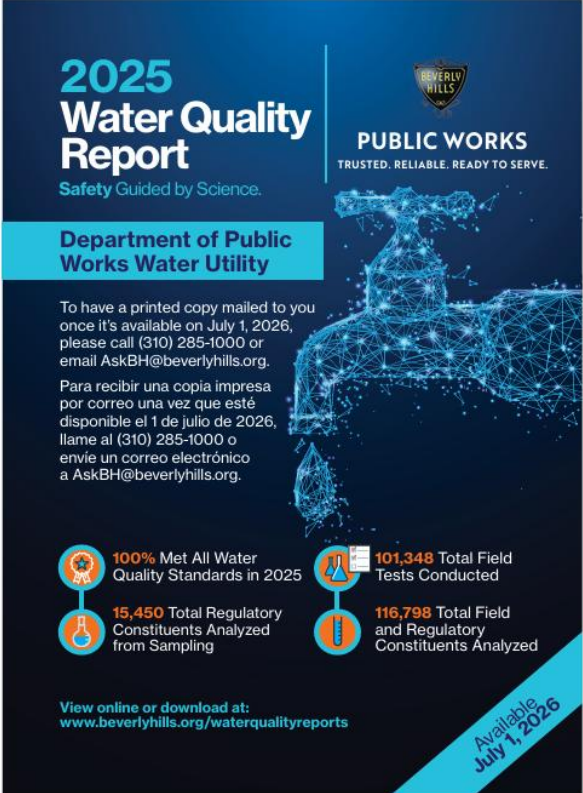

The proposal, which was drafted by Board President Judy Manouchehri and Vice President Sigalie Sabag, offers separate sets

TK classrooms to comply with applicable legal requirements.

In kindergarten through fifth grade classrooms, devices would only be permitted for students to take state-mandated and i-Ready assessments and practice for those

advanced academic work, college readiness and career preparation. The proposal encourages high school teachers to design homework assignments that minimize the use of AI and make clear whether students created the work on their own.

and in certain Beverly Hills High School and Beverly Vista Middle School athletic facilities. ●

Driver faces murder charges in deaths of officer, motorist

A 36-year-old driver who authorities said was speeding at more than 110 mph moments before he struck and killed an LAPD officer and a stranded motorist on the 405 Freeway last year was charged with two counts of murder, Los Angeles County District Attorney Nathan Hochman announced.

"This case is a tragic reminder that police officers risk their lives every day to keep us safe," Hochman said. "I want to emphasize that speeding kills. If you drive over 100 mph and kill someone, you are on a fast-track to a murder charge."

The driver, Mario Joseph Dickham, of Hawthorne, faces two counts of second-degree murder for the deaths of Sgt. Shion Lih Deng, who was assigned to the West Los Angeles Division, and Jaco Arturo Garcia, whose truck was disabled on the freeway when the collision occurred on June 23, 2023. Dickham had been cited a month prior for driving 105 mph and failed to appear in court, authorities said. The defendant also has multiple additional prior speeding citations.

Dickham is accused of crashing into Deng's patrol vehicle and Garcia's pickup, killing both men, shortly before the fatal collision. Garcia was involved in a separate collision and his pickup became stalled in the HOV lane near the Sunset Boulevard exit. Deng was driving on the 405 Freeway when he came upon the disabled vehicle and stopped behind Garcia with his emergency lights flashing to protect the stranded motorist, Hochman said.

Two minutes later, Dickham's car struck both vehicles.

Dickham faces 15 years to life in state prison for each victim. He is being held on \$4 million bail.

Two minutes later, Dickham's car struck both vehicles.

Dickham faces 15 years to life in state prison for each victim. He is being held on \$4 million bail.

Dickham is accused of crashing into Deng's patrol vehicle and Garcia's pickup, killing both men, shortly before the fatal collision. Garcia was involved in a separate collision and his pickup became stalled in the HOV lane near the Sunset Boulevard exit. Deng was driving on the 405 Freeway when he came upon the disabled vehicle and stopped behind Garcia with his emergency lights flashing to protect the stranded motorist, Hochman said.

Two minutes later, Dickham's car struck both vehicles.

D.A. warns about dangers of illegal fireworks

In advance of Independence Day, Los Angeles County District Attorney Nathan Hochman is reminding residents about the devastating consequences of illegal fireworks and explosives. Hochman also reiterated authorities' commitment to prosecute those who transport, sell and use illegal fireworks.

"Far too often, we have seen the destruction and deadly consequences of explosive devices that are illegally transported across state lines, sold in our communities and set off resulting in catastrophic explosions often killing innocent bystanders," Hochman said. "As Independence Day approaches, I want to remind our communities that celebrations with illegal fireworks and explosives are not harmless entertainment. These devices can kill people, causing devastating injuries and destroying entire neighborhoods. Recent tragedies in Los Angeles County are heartbreaking reminders of what can happen when these dangerous explosives are set off. To anyone who manufactures, supplies, distributes, stores or sells illegal fireworks - you are breaking the law and my office stands ready to aggressively hold you accountable."

The District Attorney's Office's Target Crimes Division filed charges on June 23 against four individuals who were allegedly in possession of 5,500 pounds of illegal fireworks and explosives intended for distribution throughout Los Angeles County. In a difficult incident in South Los Angeles, four

family members were charged on June 16 with possessing more than 5,000 pounds of fireworks in their home, putting children in danger. Hochman also cited a June 21, 2024, incident in which an anonymous tip led detectives to a storage unit in Gardena and the recovery of 75 tons (150,000 pounds) of illegal mortar-style fireworks.

The pre-Independence Day warning reflects the District Attorney's Office's broader commitment to holding offenders accountable and protecting communities. Hochman also warned that supplies and distribution of illegal fireworks and explosives bear a special responsibility because their actions can endanger

communities. Prosecutors and law enforcement agencies are working together to identify and dismantle illegal fireworks operations before they lead to preventable tragedies.

Possessing and lighting fireworks is illegal throughout L.A. County. Residents are encouraged to attend professionally conducted fireworks shows. Anyone who witnesses the transportation, sale or use of illegal fireworks and explosives is asked to call the BHFD at (310)550-4951, the West Hollywood Sheriff's Station at (310)855-8381, and the LAPD at (877)ASK-LAPD, or visit wsep.com, which is monitored 24 hours by LAPD's Major Crimes Division.

Drone program prepares to launch

situations by determining whether it is a major or minor incident ahead of time, allowing authorities to dispatch a large or small number of personnel.

"The drone is going to be our eyes in the sky to basically tell the deputies on the ground what are responding to a call for service [what is occurring in real-time]," Lapkin said. "It's having eyes in the sky to make sure that a deputy is communicating with the other deputies on what they see."

For the sheriff's department policy, the UAS (Unmanned Aerial Systems) Operations Unit will oversee overall management of the drone program. The drones will only record video footage when they are over an incident scene, not on flights to or from the sheriff's station. Video footage is treated the same as footage from a deputy's body-worn camera and will be available for review when necessary. Only personnel from the sheriff's department will have access to the footage and it will not be shared with outside entities, Lapkin said. She stressed that the department does not share any information with federal immigration officials.

"All department UAS deployments shall be conducted in a manner that is consistent with the requirements and protection of the United States Constitution and the California State Constitution, and pursuant to all applicable laws and regulations," the Los Angeles County Sheriff's Department's updated UAS Operations Policy states.

Lapkin added that the drones will not be used to monitor public demonstrations or First Amendment-protected gatherings, which was a previous concern. The city will also launch an online dashboard where the public can see flightpaths and other metrics once the program becomes operational.

"You will see specifically where the drone flew on a map,

and it will tell you the type of call and the duration of the flight," Lapkin said. "And then the dashboard will give you a little bit more information - the date, the time, the location and then if there was an arrest, what was the outcome of the call."

The Drone as First Responder Program is part of a larger \$750,000 public safety initiative approved by the council in 2024 that established a Real Time Watch Center at the West Hollywood Sheriff's Station. The Real Time Watch Center uses a system of closed-circuit cameras positioned throughout the city. The cameras are monitored by deputies at the station, who coordinate personnel in the field when calls for service are received. The drones are an expansion of the watch center's capabilities, Lapkin said.

In June, the Real Time Watch Center was credited with the quick apprehension of a suspect who robbed a bank on Santa Monica Boulevard in the Rainbow District. The suspect was observed on camera leaving the bank and deputies directed patrol units to his location, enabling them to quickly take the man into custody. Lapkin said the suspect was armed and was wanted for three additional bank robberies in Ventura and Orange counties.

Members of the West Hollywood City Council received the information from Lapkin and Rivra and filed the update. No new approvals for the program were needed. Mayor John Heilman said he hopes the program takes flight soon given all the preparations.

"I want to start by saying I appreciate all the work that has been done," Heilman said. "I'm glad that the department now has this policy in place, it's much more comprehensive than the policy that we were starting with, that I've still frustrated that it has taken us so long to get this point."

City of Beverly Hills Celebrates Major Preservation and Infrastructure Milestones

The City of Beverly Hills is proud to spotlight several recently completed projects that reflect its dual commitment to preserving historic character and modernizing public infrastructure.

At Greystone Mansion, the **Pool House Waterproofing and Restoration Project** addressed years of water intrusion damage to the 1929 structure. Crews restored the entry trellis, installed new waterproofing on the walls and roof deck, repointed exterior stone joints, and updated interior finishes—ensuring the beloved venue continues supporting weddings, camps, and community events for years to come.

In Trousdale Estates, the **Hillcrest Shelter Rehabilitation Project** repaired storm-damaged roof framing and hand-replicated the shelter's historic carved wood fascia.

Completed in February 2026, the project earned a Restoration/Rehabilitation Award from the Cultural Heritage Commission, honoring its adherence to the Secretary of the Interior's preservation standards.

Beverly Gardens Park welcomed back a civic treasure with the return of **Hymn of Life: Tulips** by Yayoi Kusama. Originally installed in 2007 as the artist's first U.S. public commission, the sculpture was refabricated in durable stainless steel after years of weather damage, and formally unveiled on March 25, 2026, following authentication from the artist's representatives.

At Will Rogers Memorial Park, a new **ADA-compliant restroom facility** opened in December 2025, nearly tripling fixture capacity while preserving the park's historic aesthetic with CMU block, clay tile roofing, and metal trellis details.

Finally, the **Library Fire Alarm Upgrade Project** is modernizing critical life-safety systems throughout the Civic Center library, replacing obsolete detectors and speakers to meet current fire codes and technology standards.

Together, these projects showcase Beverly Hills' ongoing dedication to safety, accessibility, and honoring its architectural legacy.

Annual Water Quality Report

The City of Beverly Hills is proud to share that we delivered high quality drinking water once again in 2025.

The Consumer Confidence Report (CCR) is an annual water quality report that helps keep our community informed about the sources of their drinking water, what's in it, and the ongoing measures we take to keep it clean, safe, and reliable. This annual report is a requirement by the State Water Resources Control Board

and must be submitted to the Division of Drinking Water (DDW) local division office.

Each year, we release a Consumer Confidence Report (CCR) sharing the most recent full year of water quality data. The 2025 CCR reflects testing and data collected during 2025, which is why it's labeled 2025 (the 2026 report will be released next year once that year's data is complete).

You can view the CCR online at www.beverlyhills.org/waterqualityreports. If you'd prefer a printed copy, please call (310) 285-1000 or email askBH@beverlyhills.org.
