The following is Q and A to assist Suburban Customer Care representatives when speaking with customers who inquire about the CCR.

Consumer Confidence Reports Questions and Answers

Basic Information

California requires water systems to deliver a Consumer Confidence Report (CCR), also known as an annual drinking water quality report, to their customers. These reports provide customers information about their local drinking water sources and quality. CCRs are posted on Suburban's website for each of its five systems.

Where can I find a copy of the most recent Suburban reports?

The reports are organized by systems. The reports are posted to Suburban's website by July 1 of each year covering water quality results of the previous year.

How do I get a hardcopy?

Suburban will mail a hardcopy of the report to customers who request it by phone or email, or submit a completed request form that will be sent with the June statements.

Miriam Lopez will collect the info and will mail the reports per the customer's request.

What type of information is in the report?

- Sources of the drinking water;
- A brief summary of the risk of contamination of the local drinking water source;
- Constituents found in local drinking water and how they compare to California maximum allowable concentrations;
- An educational statement for vulnerable populations about avoiding *Cryptosporidium*;
- Educational information on nitrate, arsenic, or lead in areas where these contaminants may be a concern;
- Phone numbers of additional sources of information, including the water system;
- EPA's Safe Drinking Water Hotline number 1-800-426-4791

How do I respond to questions about the information presented on the CCR?

- Forward customer calls regarding the CCR to Ken Reich **Office 626.543.2575 | Cell 626.590.2507**
