☒ CCR, because we are a private company with only 2 connections associated with the working business of 58 employees, I posted the CCR in the main office's Posting Wall where the CCR is posted every year. The wall is located on the same side as the conference room in the main office building at 2352 San Juan Road, Aromas CA 95004 where most company information is posted. Employees are notified via a safety committee meeting where the CCR is posted and its contents. Translation in Spanish is available via Human Resources or Safety Director Richard Muñoz who is also the systems operator. After posting the CCR, I, Richard Muñoz, meet with all employees in attendance this date and go over the CCR information with them. I make time available in private for any specific questions. For the office personnel, I e-mailed them a copy of the CCR and inform them they can e-mail me any questions or concerns. They can also meet with me in private if needed in English or Spanish.

This form is provided as a convenience and may be used to meet the certification requirement of
section 64483(c) of the California Code of Regulations.
