Press Release:

Press Release posted on MesaWater.org, July 1, 2025

Link: <https://www.mesawater.org/press-releases/2025-water-quality-report-reaffirms-mesa-water-districts-water-clean-and-safe>

The screenshot shows the MesaWater District website. At the top is the MesaWater DISTRICT logo and a navigation menu with links: Leadership, Departments, Community, About, Customer Service, Water Quality, and Water Wise. A button labeled "PAY/VIEW MY BILL" is in the top right. Below the navigation is a large blue banner with the word "MesaWater" in a stylized font. The main content area features the headline "2025 Water Quality Report Reaffirms Mesa Water District's Water is Clean and Safe" and a sub-headline "2025 Water Quality Report Reaffirms Mesa Water District's Water is Clean and Safe". The text below the headline states: "COSTA MESA, Calif., June 30, 2025 — Residents and businesses in Mesa Water District's (Mesa Water®) service area can be fully confident in the quality of their water. The newly released 2025 Water Quality Report (Report) confirms the district's local groundwater supplies meet all strict state and federal drinking water regulations." It also includes a quote from Marice DePasquale, Mesa Water Board President, and information about the annual Water Quality Report and how to access it.

Bill Insert:

Bill Insert Notifications mailed or included electronically in bills for customers (~18,500 total customers), July 1, 2025 - August 31, 2025:

The graphic is a horizontal banner. On the left is a photograph of a woman pouring water from a pitcher into a glass, with a young boy and an older man sitting at the table. Below the photo is the text "Your Water is Safe" with a blue checkmark icon. To the right of the photo is the MesaWater DISTRICT logo. Further right is the text "WATER QUALITY REPORT NOW AVAILABLE!". Below this is a paragraph of text: "Mesa Water District's (Mesa Water®) top priority is delivering 100% local, reliable, clean, safe water to our customers. For 65 years, we've provided high-quality drinking water that consistently meets or surpasses all state and federal drinking water regulations." This is followed by a bold statement: "You can rest assured your water is safe. Mesa Water conducts more than 30,000 water quality tests annually to ensure your water meets rigorous drinking water standards." Below this is another paragraph: "The 2025 Water Quality Report contains important information about your drinking water. Read the 2025 Report at [MesaWater.org/WaterQualityReport](https://www.mesawater.org/WaterQualityReport)." On the far right, there is a vertical stack of social media icons for Facebook, YouTube, and Instagram, followed by the text "@MesaWater".

No Sweat About Water Supply During Dry Seasons

As summer temperatures climb, rest assured your water supply is reliable. Thanks to decades of long-term planning and investment from our Board of Directors, Mesa Water District (Mesa Water®) delivers a 100% local, reliable and resilient water supply to your homes and businesses year-round.

Mesa Water does not rely on imported water from the Colorado River or Northern California—making it the only water district in Orange County to be 100% locally sourced. Rather, we draw all of our water from the Orange County Groundwater Basin—an abundant, locally managed source that's regularly replenished by the Santa Ana River, stormwater and the Groundwater Replenishment System (GWRS), a world-renowned water purification project that recycles water to near-distilled quality.

Mesa Water customers also benefit from our forward-thinking infrastructure maintenance and management. Our infrastructure is continuously maintained and upgraded to reduce water loss, improve efficiency, and protect customers from rate volatility. In fact, our proactive maintenance ensures a tight system with water loss levels far below the national average.

Although Mesa Water has an abundance of water, using water wisely is always a smart choice. Outdoor water use remains the biggest opportunity for water use efficiency since it cannot be captured and recycled like indoor water. Making minor changes, such as adjusting irrigation timers, fixing sprinkler leaks, or choosing drought-tolerant landscaping can make a meaningful impact to reduce your usage of our most precious resource. [For water-wise resources, visit MesaWater.org/BeMesaWaterWise.](https://MesaWater.org/BeMesaWaterWise)

Budding Researchers Share New Environmental Insights

More than 120 future scientists from area high schools presented their research findings at the annual Institute for Conservation Research and Education (ICRE) student poster symposium, hosted at the Mesa Water Education Center. Students spent a year conducting research on a range of environmental topics about local flora, fauna and more.

The winning team was Gaby Barragan, Zoey Young, Gianna Matian, Allie Trask and Lucca Miller from Costa Mesa High School for their presentation, "How do Invasive Mussels Affect Biodiversity?"

2025 Water Quality Report Now Available

Mesa Water conducts extensive water quality testing to ensure your water is clean and safe. To read the 2025 Water Quality Report, visit MesaWater.org/WaterQualityReport.

To request a printed copy, email Info@MesaWater.org or call 949.631.1201 and include your name and mailing address.
