WATER QUALITY REPORT: MOULTON NIGUEL DELIVERING SAFE & CLEAN WATER

Our highest priority is providing you and your family with safe and reliable water service. Every year, Moulton Niguel conducts approximately 12,000 water quality tests that are independently analyzed at state-of-the-art laboratories. Our water is tested at each stage of the treatment and delivery process to ensure it's safe when it reaches your home or business. We are proud to report that, once again:

Moulton Niguel's drinking water is safe and continues to meet or exceed state and federal water quality standards.

TURN DOWN THE HEAT ON YOUR SUMMER BILL!

Replace Thirsty Turf

A climate-adapted, water-smart landscape uses a fraction of the water compared to a traditional lawn. Rebates can offset the cost. See what's available at mnwd.com/rebates.

Water Early or Late

Run your irrigation before 9 a.m. or after 5 p.m. to minimize evaporation. The same amount of water goes a lot further during a cooler time of day. Discover more water saving tips at mnwd.com/watersavingtips.

Check Your System Monthly

A broken sprinkler or severed line can waste hundreds of gallons before you notice. Walk your yard once a month with the system running and look for leaks, mist, and dry spots. Learn what to look for at mnwd.com/irrigation.
