water quality

Indio Water Authority's top priority is to deliver high quality and safe drinking water that meets the strict drinking water standards established by the State of California and the U.S. Environmental Protection Agency. IWA's drinking water supply is routinely and comprehensively monitored and water samples are collected and tested.

Each year, IWA produces an annual consumer confidence report that documents that the drinking water served to all IWA customers meets the strictest state and federal drinking water standards. Please click the link below to view the latest report; published copies are available at the IWA Corporate Yard.

The most recent report is the 2022 annual water quality report. You can access the report by clicking on the links below.

The Annual Consumer Confidence/Water Quality Report Is Now Available

The 2022 Annual Consumer Confidence Report is now available for viewing. This report, also known as the Water Quality Report, provides information on the quality of drinking water supplied to our communities. It details water sources, the constituents found in the water, and how the water compares with state and federal standards.

It is our commitment to deliver high-quality and safe drinking water that meets or exceeds the strict drinking water standards established by California and the US Environmental Protection Agency. You can view your agency's water quality report by clicking on the link to your water agency below:
