## 2023 Water Quality Report Available Now

**Rancho Water's tap water supply met or exceeded ALL  
2023 U.S. EPA and State drinking water standards**

Reliable, high-quality water. This is the mission of Rancho California Water District (Rancho Water/District) and a top priority of every one of our employees. And we're proud to say that our dedication to the mission makes a difference. Based on the water quality monitoring data collected in 2023, the District's tap water met or exceeded all state and federal drinking water standards.

This annual water quality document, the Consumer Confidence Report (CCR), is mandated by the U.S. Environmental Protection Agency (EPA) and the State Water Resources Control Board's Division of Drinking Water to inform customers about their drinking water supply for the previous year. This CCR contains information about Rancho Water's water supply and how it meets regulatory drinking water standards. Inside, you'll find data, facts, and water efficiency tools to give you a better idea of your water quality.
