Understanding Your Bill

The information below defines some of the new terms you may find on your bill:

- **Service Related Charges:** This section includes charges for services related to water (or wastewater) service. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- **Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- **Surcharges:** Surcharges are used to recover changes to costs that occur between ratemaking cycles. Common surcharges include Purchased Water, Consolidated Expenses, Conservation, Intervenor Compensation and Payment Assistance.
- **Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- **Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- **Still have questions?** We are here to help. Our customer service representatives are available M-F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

- Su informe anual de la calidad de agua puede consultarse electrónicamente en www.amwater.com/ccr/suburbanrosemont.pdf. Si prefiere una copia, por favor póngase en contacto al cliente con nuestro centro de servicio en 888-237-1333.
- Please update your contact information at www.amwater.com/myaccount in order to ensure you receive notifications of water-related emergencies, service outages and more. You can enter up to three phone numbers and three email addresses.

CONSUMER CONFIDENCE REPORTS SHOW EXCELLENT WATER QUALITY IN CALIFORNIA

California American Water Surpasses State and Federal Standards

SAN DIEGO (June 5, 2020) – California American Water published the 2019 Consumer Confidence Reports, which show high quality water service throughout its state districts. The annual reports compare California American Water's water quality with standards established by the U.S. Environmental Protection Agency and the California State Water Resources Control Board, Division of Drinking Water.

The reports also cover drinking water sources, public health information, substances detected in the water and the levels of those substances. Commonly asked questions and answers concerning drinking water are also included.

The reports feature illustrated sections on common containments and simple-to-read explanations of the various technical terms.

"We are pleased to announce that our 2019 reports demonstrate excellent water quality that meet and exceed all regulatory standards," said Rich Svindland, President of California American Water. "We hope that customers will find these reports as educational and helpful in answering the questions they may have about the state of their water."

Customers can look up their water quality reports by zip code by visiting:
www.californiaamwater.com/water-quality.
