Good morning all,

Please find attached the Annual Consumer Confidence Report already approved by the agencies. State regulations require community water systems and nontransient-noncommunity water systems to provide consumers with an annual Consumer Confidence Report (CCR). Section 64483(b) requires that the water system "make a good faith effort to reach consumers who are served by the water system but are not bill-paying customers, such as renters or workers..."

This report contains information on our drinking water, including statistics from hundreds of water quality tests performed throughout the report year. This report is intended to inform and assure consumers that our drinking water is of the highest quality and meets all County, State and Federal water quality standards. Our staff takes great pride in providing top quality water to all of us. I personally want to say thank you to our Water Treatment Department for keeping these standards.

Here in this email you have a copy of the report which is also available in Lighthouse, under the Compliance folder at the link below:

Es obligatorio ofrecer la información contenida en esta comunicación también en español u otro idioma alternativo, por eso este informe esta también disponible en español si lo deseáis. Así que con mucho gusto y orgullo os informo de que el documento está a vuestra disponibilidad en español igualmente.

If you have any question or concern about your drinking water please contact me directly.

Best regards / Saludos.

José Manuel Bravo Romero. Manager. Compliance, Quality & Environmental Department.
