Subject: RE: 2025 Water Quality Report/Consumer Confidence Report_ Request to Distribute to Housing Residents

Good morning Erin,

It's that time of year again to distribute the 2025 Water Quality Report / Consumer Confidence Report to Fort Irwin residences and customers. Could you please send these out through your housing email system and respond back to me when that has been done? I must show recites that the reports were given to the customers before July 1st.

Brief description below:

- The Consumer Confidence Report, or CCR, is an annual water quality report that the Safe Drinking Water Act requires a community water system to provide to its customers. Among other things, the report lists the regulated contaminants found in the drinking water, as well as health effects information related to violations of the drinking water standards. All CWSs must deliver to their customers annual reports on the quality of water delivered by the system.

You can use my information if there are any concerns or questions.
