NOTIFICATION PLAN

Attach a written description of the method or combination of methods to be used (radio, television, door-to-door, sound truck, etc.) **to notify customers in an emergency.** For each section of your plan give an estimate of the time required, necessary personnel, estimated coverage, etc. Consideration must be given to special organizations (such as schools), non-English speaking groups, and outlying water users. Ensure that the notification procedures you describe are practical and that you will be able to actually implement them in the event of an emergency. Examples of notification plans are attached for large, medium and small communities.

SB552 Requirements:

1. Who is responsible for water shortage planning and response for the water system?

Name: David Hasty
Email: david@palomar.camp
Phone #: 760-267-7633

2. In the event of a severe water shortage or catastrophic water outage:

Plan 1 (Small Community)

Our community is very small and the most efficient means of notification are (1) sending out an email blast to full-time staff, seasonal staff, and staff families, (2) notifying managers of each department to pass onto their staff, (3) making a radio announcement to all staff who are working, (4) and going door-to-door as needed.

When guests are present on our campgrounds, we connect personally with each group leader who makes an announcement to their group members and we can make an announcement at meal times when everyone gathers together. We can go door-to-door if needed. It is estimated that the entire service area can be covered in one hour.
