

## Consumer Confidence Report Certification Form

*(To be submitted with a copy of the CCR)*

Water System Name:	Padre Dam Municipal Water District
Water System Number:	CA3710037

The water system named above hereby certifies that its Consumer Confidence Report was distributed on 6/17/2024 to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by:

Name: Paul Clarke	Title: Director of Operations & Water Quality
Signature: 	Date: 6/25/2024
Phone number: 619-258-4746	blank

*To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:*

- CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
  - Posting the CCR at the following URL: [www.padredam.org/2023WQR](http://www.padredam.org/2023WQR)
  - Mailing the CCR to postal patrons within the service area (attach zip codes used)
  - Advertising the availability of the CCR in news media (attach copy of press release)
  - Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
  - Posted the CCR in public places (attach a list of locations)
  - Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
  - Delivery to community organizations (attach a list of organizations)

- Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
- Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
- Other (attach a list of other methods used)
- For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www.\_\_\_\_\_
- For privately-owned utilities: Delivered the CCR to the California Public Utilities Commission

### **Consumer Confidence Report Electronic Delivery Certification**

*Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.*

- Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: www.padredam.org/2023WQR
- Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: www.padredam.org/2023WQR
- Water system emailed the CCR as an electronic file email attachment.
- Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- Requires prior DDW review and approval. Water system utilized other electronic delivery method that meets the direct delivery requirement.

*Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.*

Postcards were mailed to all postal customers in the District's service area and included instructions with the required information on how to access the CCR. (Copy attached)
An email was send to all customers with an email on file. (Copy attached)
Hard copies have been mailed to customers that have requested a copy.
Copies are available in the Customer Service Center lobby.

The CCR has been posted on the Districts web site, and links sent out via Facebook, X and Instagram. (Copies attached)
The CCR was uploaded to the EARS portal on 6/25/2024.

*This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c) of the California Code of Regulations.*

Postcard: Front  
and Back

## 2023 Water Quality Report

### Annual Water Quality Report Available Online

Padre Dam's Annual Water Quality Report provides important information on the source and quality of your drinking water. The State Water Resources Control Board Division of Drinking Water allows electronic delivery of the report. This helps Padre Dam to reduce paper consumption and minimize printing and mailing costs.

**Padre Dam's 2023 Annual Water Quality Report will be available online by July 1, 2024. To learn more about your drinking water please visit:**

**[www.padredam.org/2023WQR](http://www.padredam.org/2023WQR)**

The Water Quality Report is an annual report that water utilities provide to the public to raise customer awareness of the quality of their drinking water, where their drinking water comes from and the importance of protecting drinking water sources.

If you would like a paper report mailed to you, please email us at [water@padre.org](mailto:water@padre.org) or call 619-258-4634. Please provide your name, address, account number and email address in your communication to us. Please respond by June 24th if you would like to receive a paper copy of the 2023 Annual Water Quality Report.

Este informe contiene información muy importante sobre su agua para beber. Favor de comunicarse Padre Dam Municipal Water District at 619-258-4634 para asistirlo en español.

## East County Advanced Water Purification Program Construction Update

The East County Advanced Water Purification Joint Powers Authority has received an 'AA' outlook stable rating from the U.S. credit rating agency Fitch Rating. This high rating indicates a very strong capacity for payment of financial commitments and provides a positive signal to potential investors.

At Lake Jennings, crews have nearly completed digging the trench for the purified water inlet. Pipeline installation and subsurface work in the lakes will occur this summer, along with maintenance work on the reservoir's outlet tower. The water level at Lake Jennings has been temporarily lowered by approximately 23 feet to allow for work and should be restored to full capacity by November.

The purified water pipeline that will transport water from the facilities north of Santee Lakes to Lake Jennings is now over 40% complete. More than 21,657 linear feet of pipe has been installed of the 10+ miles pipeline. Work is continuing along Mast Boulevard in Santee and Mapleview Street in Lakeside.
