Title: General Manager

Signature: Brad Hagemann

Date: 6/28/22

Phone number: 905.835.3163

To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - Posting the CCR at the following URL: www.Avilabeachcsd.org
 - Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - Advertising the availability of the CCR in news media (attach copy of press release)
 - Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - Posted the CCR in public places (attach a list of locations)
 - Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
 - Delivery to community organizations (attach a list of organizations)
 - Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
 - Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
 - Other (attach a list of other methods used)
- For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www._____

ANNUAL CONSUMER CONFIDENCE REPORT TO CUSTOMERS

Dear Customer:

California Drinking Water Regulations require that every water system annually report to their customers on the quality of water served during the previous year. The Consumer Confidence Report is intended to help Avila Beach Community Services District (District) customers become more informed on the quality of the District water and our compliance with the regulations. You may view the Consumer Confidence Report by visiting our website at: <https://www.avilabeachcsd.org/ccr>

The drinking water delivered by the District is purchased from two sources, the Lopez Water Supply Project, owned and operated by Zone 3 of the San Luis Obispo County and from the State Water Project. Both sources are delivered through the Lopez water delivery system.

All information in this report was obtained from analyses that were performed during 2021 from the Lopez Water Treatment Plant, the Polonio Pass Water Treatment Plant, or the District distribution system. Treated State Water is blended with Lopez water in the County's distribution system originating at the Lopez Dam. In addition to routine testing performed by San Luis Obispo County (Lopez water) and the Central Coast Water Authority (State water), the District also reports the results of monthly bacteriological testing for samples taken from the town's distribution system.

Water quality at various locations throughout the distribution system can vary from time to time. This is due to operational procedures, system limitations, chemical reactions and climatic changes. However, all drinking water delivered by the District meets all mandatory health-related standards established by the State of California Division of Drinking Water.

If you are a landlord or business owner, we encourage you to make this information available to your tenants and/or employees who may be interested in the quality of drinking water serving Avila Beach. If you have any questions concerning the attached water quality report, please call (805) 595-2664 or come by the District office at 100 San Luis Street, Avila Beach.

Sincerely,

Brad Hagemann, PE
General Manager
