

APPENDIX B: eCCR Certification Form

Consumer Confidence Report Certification Form

(To be submitted with a copy of the CCR)

Water System Name:	PG&E Diablo Canyon
Water System Number:	4000589

The water system named above hereby certifies that its Consumer Confidence Report was distributed on 4/23/2024 to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by:

Name: David Alvarado	Title: Senior Chemical Engineer
Signature: 	Date: 4/23/2024
Phone number: (805) 545-3262	blank

To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- ☐ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☒ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☐ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - ☐ Posting the CCR at the following URL: www._____
 - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - ☐ Advertising the availability of the CCR in news media (attach copy of press release)
 - ☐ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - ☐ Posted the CCR in public places (attach a list of locations)
 - ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools

*This form is provided as a convenience and may be used to meet the certification
requirement of
section 64483(c) of the California Code of Regulations.*

2R24 Power Up for Tuesday, April 23, 2024

DCPP Communications <DCPPCommunications@pge.com>

Tue 4/23/2024 6:00 AM

2R24 POWER UP

YOUR NUCLEAR GENERATION
OUTAGE CONNECTION

TUESDAY, APRIL 23, 2024

Roadmap Tenet: *"We work together to achieve excellence."*

Videos: A Safety Message from Station Director Justin Rogers & Safety Stand-down

Since the start of 2R24, seven first aid incidents have occurred at DCPP, including four in one day. Station Director **Justin Rogers** has an important message for you. Please take the time to [watch Justin's video](#).

In addition, please [watch this recording](#) of last night's Extended Leadership Team Safety Stand-down meeting held to discuss how to prevent similar incidents in the future.

Also, here is a related [Five-Minute Meeting](#). Remember: *"Everyone and everything is always safe."*

Mark Zentmyer to Lead the Procedure Writing Team

Here's good news: **Mark Zentmyer** has been promoted to Maintenance Procedure Writing Supervisor. Mark will be responsible for overseeing the development and maintenance of procedures for electrical equipment at the DCPD Work Management department. Mark has a long and distinguished career in the nuclear industry, spanning over five decades. He joined our organization in 1985, after serving as a Nuclear Electrical Operator in the United States Navy. [Read more about Mark](#). Please join us in congratulating him on his well-deserved promotion.

Parking Lot 3 Closed This Week

Parking lot 3 is closed this week through Friday. The closure is for Vertical Cask Transporter mobilization and load testing in preparation for the summer fuel movement campaign.

Parking Area 10 Partial Closure Today

The parking spots directly in front of the Reverse Osmosis Decant Tanks, across from the Rotor Storage Building, will be closed off today to support clean-out of SWRO Decant Tanks by VEOLIA/Clean Harbors via a vacuum truck.

DCPP Trivia Contest Winner

The winner of last week's DCP Trivia Contest is **Dana Rogers**! The winner's name was chosen randomly from those who submitted a correct answer. Dana, to claim your prize, please contact **Jim Jennings** (J5JB) in DCP Communications. Last week's question was: DCP's 2 operating units produce a total of how many gigawatt-hours of electricity annually? The correct answer is: 18,000. 19 people had the correct answer! We will bring you a new DCP trivia question on Wednesdays during 2R24 in Power Up.

Canyon Café Menus

Outage hours: The cafeteria is open Monday–Saturday 0500–0900, 1030–1300, and 1600-2400.

OTHER NEWS

Serving our Planet: PG&E Customers' Electricity 100% Greenhouse Gas-Free in 2023

On Earth Day, PG&E announced that its retail customers received 100% greenhouse gas-free electricity in 2023, making its electricity sources one of the cleanest in the world. Diablo Canyon Power Plant played a significant role in this achievement, generating 53% of electric deliveries as carbon-free nuclear power. [Listen to this radio report](#) from KCBS-AM where PG&E CEO **Patti Poppe** said, "It was a combination of wind, solar, small and large hydro, and our Diablo Canyon Nuclear Power Plant." California's climate goals include reaching carbon neutrality by 2045. PG&E is committed to reaching carbon neutrality by 2040, and to actively removing more greenhouse gases than the company emits by 2050.

2023 Domestic Water Consumer Confidence Report

Diablo Canyon's domestic water is produced onsite under contract by SUEZ from a blend of well water and water from the desalination plant which is combined and purified through reverse osmosis. The SUEZ water plant also produces makeup water for DCPD systems. Chemistry monitors the domestic water to confirm that the water quality at your locations meets all applicable state and federal limits, to coordinate implementation of engineering controls, to support system improvements where appropriate and address any concerns that are raised from plant personnel. The attached [Domestic Water Quality Report](#) (Consumer Confidence Report) for 2023 reflects the results from the routine sampling that is performed during the last calendar year, 2023. Please contact **David Alvarado** in DCPD Chemistry at (805) 545-3262 or (805) 748-0905 if you have questions regarding the CCR or any other domestic/drinking water issues. If anyone would like a paper version of this Consumer Confidence Report, please contact David at (805) 545-3262 or d2a1@pge.com.

Kabobs & More! Pop-up Event Today Highlights MEENA Cultures

A Persian Food Pop-up Event will be hosted today by Diversity, Equity, Inclusion and Belonging (DEIB) from **1100 – 1300 in the Admin building lobby**. Sample delicious food (while it lasts!) from [Shekamoo Grill and Catering](#), a local Persian catering company owned by Nuclear Planner **Lindsey Shakerian** and her husband, Sina. [Click here](#) for more information about the MEENA Employee Resource Group (ERG). If you'd like to share your experience with MEENA cultures, contact **Adam Pasion** (ANPE@pge.com).

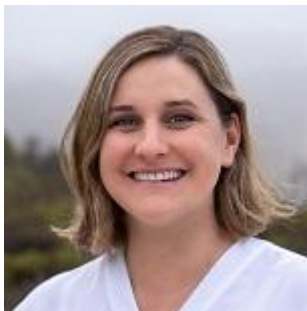

Industry & Career Opportunities for Coworkers

Open positions at Diablo Canyon Power Plant.

If you are interested in applying, [see the listings here](#).

IN CASE YOU MISSED IT

DCPP Outage Services Team Welcomes New Changes & Faces

Recent changes within the DCPD Outage Services team: **Kristin Smith** has accepted the position of Outage Manager, previously held by **Mike Quitter**. **Ryan Borba** is filling in as interim License Renewal Coordination Manager. Additionally, we welcome **Taryn Lessi** as a new Outage Specialist. We are confident that these changes will bring new energy and ideas to our team, and we look forward to their contributions.

My Outage Job: Elizabeth Ruiz

Throughout 2R24, we will share **My Outage Job** profiles in Power Up. We begin with **Elizabeth Ruiz**:

“I work in the OCC as the Night Shift Admin Support. I took over the OCC Night Shift Admin job from **Karen Mason** who did it for many years. I was able to learn a lot from her during 1R24,” Elizabeth said. “The OCC works as a team to set the Outage schedule up for success for each shift. I love working with dedicated and motivated people who take pride in their work.” [Read more](#) about Elizabeth’s background, her favorite parts of this role, and her advice for working the nightshift.

2R24 Pre-Outage Training Recognition

With 2R24 Pre-Outage Training coming to an end, Learning Services would like to recognize our coworkers who accomplished so much:

- 1103 coworkers processed (unescorted/escorted) between March 4 – April 15
- 392 On-the-Job Trainings (OJTs)
- 390 Task Performance Evaluations (TPEs)
- 276 Qualification Signatures
- 35 ANSI Personnel Education and Experience Qualifications

[See the names](#) of coworkers receiving recognition and thanks for their contributions to the outage.

Non-Bargaining Unit 2R24 Shift Premium Memo

(Please note that this information does NOT apply to Bargaining Unit (BU) employees such as IBEW or SEIU or ESC.) A reminder about Non-Bargaining Unit (NBU) employees (monthly paid employees) entitled to shift premiums during the Outage: To assign a shift premium for a NBU employee, the supervisor must submit a PCR to start the shift premium. At the end of the Outage/Assignment, another PCR must be submitted to remove or change the premium. This is important to avoid overpayments. [Read details here.](#)
