*To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:*

- ☒ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☐ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☒ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
  - ☒ Posting the CCR at the following URL: [www.https://www.portsanluis.com/2223/Open-Government](https://www.portsanluis.com/2223/Open-Government)
  - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
  - ☐ Advertising the availability of the CCR in news media (attach copy of press release)
  - ☐ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
  - ☒ Posted the CCR in public places: Harbor District Main Office Bulletin Board
  - ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
  - ☐ Delivery to community organizations (attach a list of organizations)
  - ☐ Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
  - ☐ Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
  - ☐ Other (attach a list of other methods used)
- ☐ For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www.

☐ *For privately-owned utilities:* Delivered the CCR to the California Public Utilities Commission

# Consumer Confidence Report Electronic Delivery Certification

*Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.*

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: <https://www.portsanluis.com/DocumentCenter/View/1834/2020-Consumer-Confidence-Report>
- ☐ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: [www.](http://www.)\_\_\_\_\_
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ *Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

*Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.*

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

**ANNUAL CONSUMER CONFIDENCE REPORT TO CUSTOMERS**

Dear Customer:

California Drinking Water Regulations require that every water system annually report to their customers on the quality of water served during the previous year. The attached Consumer Confidence Report is intended to help Port San Luis Harbor District (Port) customers become more informed on the quality of the Port's water and our compliance with the regulations. An electronic copy of this report can also be accessed from the Port's website at the following URL: <https://www.portsanluis.com/DocumentCenter/View/1834/2020-Consumer-Confidence-Report>

The drinking water delivered by the Port is purchased from the Lopez Water Supply Project, owned and operated by Zone 3 of the San Luis Obispo County. The source is delivered through the Lopez water delivery system.

All information in this report was obtained from analyses that were performed during 2020 from the Lopez Water Treatment Plant, the Polonio Pass Water Treatment Plant or the Port's distribution system. Treated State Water is blended with Lopez water in the County's distribution system originating at the Lopez Dam. In addition to routine testing performed by San Luis County (Lopez water) and the Central Coast Water Authority (State water), the Port also reports the results of monthly bacteriological testing samples taken from the Port's distribution system.

**Water quality at various locations throughout the distribution system can vary from time to time. This is due to operational procedures, system limitations, chemical reactions, and climatic changes. However, all drinking water delivered by the Port meets all mandatory health-related standards established by the State of California Division of Drinking Water.**

If you are a lessee or licensees, we encourage you to make this information available to your employees who may be interested in the quality of drinking water serving Port San Luis Harbor District. If you have any questions concerning the attached water quality report, please call (805) 595-5400 or stop by the Main Office at 3950 Avila Beach Drive.

Sincerely,

A handwritten signature in blue ink that reads "Natalie Teeter". The signature is fluid and cursive, with the first name "Natalie" being larger and more prominent than the last name "Teeter".
