To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - Posting the CCR on our website: www.psh2o.com and at the following URL: <https://drinc.ca.gov/ear/CCR/CCR2018CA4400598.pdf>
 - Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - Advertising the availability of the CCR in news media (attach copy of press release)
 - Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - Posted the CCR in public places (attach a list of locations)
 - Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
 - Delivery to community organizations (attach a list of organizations)
 - Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
 - Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
 - Other [Mailed a CCR notice, via USPS, to tenants in cases where landlord pays the water bill](#)
- For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www._____

- For privately-owned utilities:* Delivered the CCR to the California Public Utilities Commission

Consumer Confidence Report Electronic Delivery Certification

Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.

- Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: <https://drinc.ca.gov/ear/CCR/CCR2018CA4400598.pdf> web: www.psh2o.com
- Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: <https://drinc.ca.gov/ear/CCR/CCR2018CA4400598.pdf>
- Water system emailed the CCR as an electronic file email attachment.
- Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- Requires prior DDW review and approval.* Water system utilized other electronic delivery method that meets the direct delivery requirement.

Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.

PureSource sent an email announcement, with the direct URL to the CCR, to all customers, property owners and tenants for whom we have email addresses. To ensure delivery to customers unable to receive electronic delivery, PureSource also provided a direct URL to the CCR on a bill insert which was mailed to all customers, property owners and tenants. Both the email announcement and the bill insert inform readers that the CCR is posted on our website, and that they may call, write, or email to request a paper copy of the CCR.

This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c) of the California Code of Regulations.

WATER USE EFFICIENCY IS A CALIFORNIA WAY OF LIFE!

If we are focused on using water efficiently,
then it will become habit
and, in turn,
become a way of life.

Here are some things **you can do to** use water more efficiently.

- ✓ Only water outdoor plants between 8pm and 10am, not during the day when you can lose up to 50% of the water to evaporation.
- ✓ Install low flow showerheads, toilets, and fixtures. Be sure to look for fixtures labeled with the EPA's WaterSense logo. Or look on their website: www.EPA.gov/watersense.
- ✓ Will a trickle do the trick? When rinsing dishes, washing hands, or running the water for other uses...will a trickle do the trick?
- ✓ Check regularly for leaks inside and outside your home.
