2024 WATER QUALITY REPORTS SHOW EXCELLENT RESULTS FOR CALIFORNIA AMERICAN WATER CUSTOMERS

SAN DIEGO (May 16, 2025) – California American Water published its 2024 Consumer Confidence Reports, demonstrating high-quality water service throughout its state districts. The annual reports compare California American Water’s water quality with standards established by the U.S. Environmental Protection Agency and the California State Water Resources Control Board, Division of Drinking Water.

The reports also cover drinking water sources, public health information, substances detected in the water and the levels of those substances. Commonly asked questions and answers concerning drinking water are also included.

The reports continue a contemporary design that features illustrated sections of common containments and simple-to-read explanations of the various technical terms within the document.

“We are pleased to announce that our 2024 reports demonstrate excellent water quality,” said Kevin Tilden, President of California American Water. “We hope that customers will find these reports educational and helpful in answering the questions they may have about the state of their water.”

Customers can look up their water quality reports by zip code by visiting: [Water Quality Reports](#)

Understanding Your Bill

The information below defines some of the new terms you may find on your bill:

- Service Related Charges:** This section includes charges for services related to water (or wastewater) service. If applicable, credits and debits for correction to previously billed charges are itemized in this section.
- Fees and Adjustments:** This section provides details related to additional charges or adjustments for the service period referenced. Fees, when applicable, would include items such as service activation and late payment charges.
- Surcharges:** Surcharges are used to recover changes to costs that occur between ratemaking cycles. Common surcharges include Consolidated Expense Balancing Account (which collects or refunds Commission-authorized expenses), Intervenor Compensation and Payment Assistance.
- Production Cost Offsets (purchased water and purchased power):** This surcharge covers the cost of water and power from wholesalers and is based on your water usage over the billing period. If your usage decreases, you will notice a difference in the surcharge cost proportionately.
- Billing Units:** One billing unit equals 100 gallons of water used. If the meter serving your property measures your water use in cubic feet or a different unit of measure, we convert the usage to gallons to make it easier to understand.
- Average Daily Use:** The gallons shown in the water droplet above represent your average daily water use for the current billing period. Tracking the amount of water you use can help you manage your overall water use from month to month.
- Still have questions?** We are here to help. Our customer service representatives are available M–F, 7 a.m. to 7 p.m. More information on understanding your bill and charges can also be found on our website. See the link below.

YOUR RATES ARE CHANGING

Between 2024 and 2026, California American Water is investing approximately \$457 million in water infrastructure throughout the state. We are focused on ensuring water quality, protecting the environment, increasing reliability, maintaining system capacity and emergency preparedness.

The following is a list of infrastructure projects in your area that are currently underway or have been completed:

SCADA IMPROVEMENTS
Investment: \$2.8 million

YOLO COUNTY NEW WELL 3
Investment: \$5.9 million

EMERGENCY GENERATOR IMPROVEMENTS
Investment: \$500,000

SACRAMENTO NEW WELL, COTTAGE WAY
Investment: \$6.1 million

Beginning on or after March 7, 2025, you may notice a change in the base and meter rates on your bill. All customers will see an update on their monthly bill to reflect the CPUC's decision on our 2024-2026 General Rate Case and filings for the 2025 Production Expense Offset Reset, 2025 Step Rate Adjustments, 2024 Annual Consumption Adjustment Mechanism (ACAM), and 2025 ACAM. More information about rate-funded infrastructure will be included with future bills. The impact for Sacramento and other Northern California water system customers will be an increase of \$6.68 or 9.69% per month for the typical residential customer and is being implemented by Advice Letters 1459-1462-B and 1467.

Residential customers will also see a new three-tier rate structure that promotes efficient water use and keeps costs down for essential uses by increasing costs as you use more water.

- FIRST TIER: First 7,500 gallons per month cost \$0.46 per hundred gallons
- SECOND TIER: Next 7,500 gallons per month cost \$0.71 per hundred gallons
- THIRD TIER: 15,000 gallons or more per month cost \$0.85 per hundred gallons

BEFORE THE RATE CHANGE

7,550 = \$68.90
